Women Increase Speed and Vanish After Car Hits Boy on Island Road

BANKER'S BROTHER HURT

Four girls, three men and three boys were injured, more or less seriously, in automobile and motorcycle accidents yesterday.

Three girls were injured when an automobile driven by Harry Camarick collided with a car driven by James Casano, on Moyamensing avenue near Twenty-first street. The cars struck head on and occupants of each were scattered over the roadside.

Those injured are Catherine Gamino, 1413 North Eighth street; Ray Gamino, same address, and Anna Winter, 1320 South Fifth street. Miss Gamino received a fractured skull. The other young women suffered cuts and bruises. All were taken to St. Agnes' Hospital.

Casano and Camarick were held in \$500 bail each for a further hearing by Magistrate Dougherty.

Walter Wartz, of 7422 Buist avenue, fourteen years old, is in the Mercy Hospital, suffering from a fractured spine and internal injuries. He was run down by two women in an automobile at Island road and Buist avenue. According to the police the women after striking the boy did not stop, but put on speed and disappeared. A tire torn from one of the wheels is the only clue the police have. The number of the car is not known. Several witnesses say there was no light on the back of the car, so the license number could not be seen.

Jacob Goldberg, of 5148 Viola street, swerved his automobile to avoid running down an aged woman yesterday at Forty-eighth street and Lancaster avenue and knocked down Anna Compton, twelve years old, of 5126 Stiles street. The girl's right leg was severely bruised.

Doctor Stroud Hurt

Dr. William D. Stroud, of 1011 Clinton street, a banker, and M. Moriarty, of 1438 Poplar street, were slightly injured when the automobile in which they were riding collided with another on Lancaster pike at Bowman avenue yesterday. George J. Anderson, of Ardmore, was driving the other car. Dr. Stroud and Mr. Moriarty were treated at the Bryn Mawr Hospital. They were able to go home.

George Kemp, twenty-nine years old, of 2784 N. Darton street, was run down yesterday by an automobile driven by Earl Clark, of 3525 Addison street. Clark took Kemp to St. Joseph's Hospital, and then surrendered to the police. Kemp has bruises and three fractured ribs.

Eugene LaFerty, twenty-two years old, of 2300 West Passunk avenue, was riding his motorcycle at Twenty-first street and Passunk avenue last night when the rear wheel flew off. He was taken to St. Agnes' Hospital, where it is said he is in a critical condition with a fractured skull.

Boy Near Death

Joseph Snyder, twelve years old, of 3641 North Thirtieth street, was struck by an automobile late Saturday night while crossing the street near his home. He was taken to the Samaritan Hospital, where he is not expected to recover. The driver of the machine, John W. Hall, of 3549 North Broad street, was arrested and held under \$500 bail to await the result of the boy's injuries.

George Buchanan, six years old, of 1912 North street, was run down by an automobile at Nineteenth street and Fairmount avenue last night. Jerome P. Price, Second street above Arch, the driver, was arrested.

Charged with driving an automobile while intoxicated, Gus Berler, of 3332 Summer street, was held under \$500 bail for a further hearing tomorrow by

MAN KILLED BY FLYWHEEL

Brewery Empls Impaled on Flywheel; Dead When Found

Edward Heron, fifty-six years old, of 2019 East Madison street, was killed almost instantly early yesterday morning when his clothing caught in the spokes of a rapidly revolving flywheel. The cause of the accident is shrouded in mystery because no calls for help were heard by any of Heron's fellow workmen.

After finishing work in the engine room of the Smith Brewing Co., thirty-eighth street and Girard avenue, Saturday night, Heron returned to the plant shortly after midnight for a forgotten key. According to the police his coat caught in the spokes.

"Force" of Advertising

The jargon of advertising includes frequent mention of "Power," "Force," "Dominate," "Compelling Copy" with the "Punch," etc., etc. These words are used most by "live wire" advertising men.

The fondly cherished ideal would be a TNT detonation of a force sufficient to knock the whole nation sitting.

The facts are, of course, that no force that was not in itself destructive could move 105,000,000 people in a hurry.

Nearly everybody likes dramatic thoughts and dislikes in equal measure to plan in terms of continual application through many years.

Success nationally cannot be made and held on any other terms.

county problems may best be solved by constitutional revision: how much interest there is in the selection of delegates to the Constitutional Convention, and to organize frequent meetings for discussion of the vital questions at issue.

"Pennsylvania women believe the time has arrived when this State should have a new Constitution," Mrs. Warburton said. "There is not a civic-minded woman in this Commonwealth who is not of the opinion that a convention should be called to revise our Constitution. Many of the things for which women have struggled for so many years are dependent upon constitutional changes that ought to be made.

Social Subjects Principally

"It is not only matters of social legislation in which we are interested. The conduct of the business, the financial, the charitable and the educational systems of Government are things to which we are earnestly attentive. We believe Pennsylvania should have a budget system. We believe there should be a change in the method of appropriating State funds to institutions. We believe in an expansive highway program
