You will like Spearmint for the same reason that children like it and delight to brush their teeth with it.

Spearmint Tooth Paste has a flavor that is pleasant-and -it cleans the teeth perfectly.

Because it contains no grit it cannot even harm the delicate enamel of children's teeth. Tooth pastes which depend upon grit and chemicals for their effectiveness are destructive and their use will finally result in damaged teeth.

Spearmint Tooth Paste contains no water. It is 100% dentifrice. A little goes a long way. Lay it across instead of along the brush. You economize and get the best results.
