

Outdoor Life Requires Hearty Food; Mrs. Wilson Gives Western Recipes

Splendid Soups Vary Today's Menu—Some Prize Cakes That Whet the Appetite and Make Good Desserts

By MRS. M. A. WILSON

OVER the great highways and small byways to our great Northwest, I have traveled far for some old-time dishes of the old country. Minnesota's wheat fields are filled by sturdy farmers and quite a few of them still have the old-world dishes.

Running a heavy tractor or working the field with a team, out in the open, the sunshine and fresh air gives them a hearty appetite that would surely surprise our Eastern folk. Along about the noon hour the dinner horn sounds its blast far and then with a "Let's go, boys," they cross the fields for their nooning.

I have brought to this page two splendid soups, both meatless; they are great favorites during the spring and summer season. Try them and I am sure you will like them for variety.

One-half cup of water, Six tablespoons of cocoa, Three tablespoons of cornstarch.

Stir to dissolve the starch and then bring to a boil and cook slowly for five minutes, and then remove from the stove and let cool, then add

One teaspoon of vanilla, One-quarter teaspoon of cinnamon.

When cake is baked, spread one layer lightly with tart jelly and then with the prepared chocolate filling. Now spread with one-half cup of thick sour cream, whipped stiff, and then place the top layer in position. Whip the whites of two eggs until very stiff and then fold in five tablespoons of confectioner's sugar and pile on top for a meringue.

This is a very rich cake, yet it has but two eggs and one and a half cups of sour cream. Butterfilm may be used in making the cake, with just as good results, when the cost is to be closely counted.

Butterscotch Icebox Cake Bake a sponge cake in a loaf-shaped pan and have it one day old. Cut in thin slices and then toast a delicate brown on one side only sufficient slices of the sponge cake to cover the bottom of the loaf-shaped pan and then let cool. Now rub the loaf-shaped pan lightly with butter and line very smoothly with wax paper and then fit the toasted slices of cake into the pan. Place the toasted side down. Lay spread with good tart jelly and then with butterscotch filling. Next a layer of sliced sponge cake, and then spread with whipped cream. Repeat until the pan is full, having the last layer of sponge cake. Place in the icebox for six hours and then turn the mold upside down on a large plate and cover with a cloth which has been rung out of hot water. This will permit the cake to leave the pan. Remove the wax paper and garnish with whipped cream and serve.

Butterscotch Filling Two cups of brown sugar, Four level tablespoons of butter, Three tablespoons of milk.

Place in a saucepan and heat very slowly until the sugar dissolves. Then cook slowly until the mixture forms a soft ball when tried in cold water, and then add

Four level tablespoons of cornstarch.

Dissolve the starch in milk before adding to the sugar mixture, and then add and beat hard to blend. Bring to a boil and cook slowly for five minutes. Add one teaspoon of Mocha flavoring and cool.

To prepare whipped cream: Soak one tablespoon of gelatin in three tablespoons of cold water for ten minutes and then place the cup containing the gelatin in a pan of warm water to melt and let cool. Now whip water to make and let cool. Add one cup of whipping cream stiff and add three tablespoons of sugar and the prepared gelatin by the teaspoonful until all is dissolved. Fasten these lovely FEATHER FLOWERS to your hat by using a small glass bead over the hole in the wooden button. FLORA.

Things You'll Love to Make Feather Flowers

A charming novelty trimming is shown today in these FEATHER FLOWERS. The centers of the flowers are wooden buttons painted yellow. Use any kind of feathers for the petals. Paint or dye them if you want any special color. Cut the feathers into the shape of the petals. Glue the petals to the back of the button. Use smaller buttons for the smaller flowers. Cut pieces of the feather the shape of leaves and fasten these lovely FEATHER FLOWERS to your hat by using a small glass bead over the hole in the wooden button. FLORA.

Inky Pinky Place four tablespoons of shortening in the skillet and add four tablespoons of flour and brown until a rich mahogany color. Now for the petals. Paint or dye them if you want any special color. Cut the feathers into the shape of the petals. Glue the petals to the back of the button. Use smaller buttons for the smaller flowers. Cut pieces of the feather the shape of leaves and fasten these lovely FEATHER FLOWERS to your hat by using a small glass bead over the hole in the wooden button. FLORA.

TRIANGULAR MOTIF POPULAR THIS SEASON

By CORINNE LOWE

That the sum of three triangles is equal to the sum of smartness of a dance frock is proved by the charming model shown today. Now, in south, we can mention the eternal triangle with deep conviction, for the season's frocks are ornamented with this motif, ranging in size from the tiniest mold to the adult size illustrated here. This particular frock cleets for its fascination.

Adventures With a Purse

TAKE along a book" is the new book slogan, and I think it is a very good one. After all, there is no friend quite like a book friend, and I love to run my hand over the back of some book I have read with pleasure that lasted from cover to cover.

"The Busy Publisher" put me in touch with a book that is somewhat the style of Lewis' book, but which, in my humble opinion, is infinitely superior. It tells of the small town of Mapleton, of the unjust treatment of the downtrodden, of so many the sins in such a delightfully charming manner, that the reader's attention never once wavers. The book sells for \$1.00 and should be among the collection of each vacationer and the stay-at-home as well.

There comes a new nail polish which gives a luster to the finger tips that would make the most sparkling of cut glass jealous. It is a liquid, and just a touch is required on each nail. The polish lasts from seven to fourteen days and is entirely harmless. Washing does not affect it and it's an entirely new product. It is priced at 85c a bottle.

Something new in collars and cuffs is always acceptable, and so you'll be interested, I am sure, in those I saw recently on display. The sheers of white organdie embroidered with tiny silk flowers and the greenest of green tervals of about a half inch. The organdie is priced at \$2.25 a yard and about a yard and a half would be ample.

Washing Silk Stockings You should not soak white or colored silk stockings. They should be washed out quickly in warm water and a good white soap and rinsed well in clear water. Then put them in a coarse towel and wring them out as far as possible before hanging up to dry. And do not hang them in the sun to dry. Neither should you iron them. The same recipe may be used for washing silk gloves as well.

If you follow these instructions you will never fade, nor yellow, nor spot, and they will dry quickly.

THE ELSO Is a New Elastic Girdle That Is an Improvement on All Others

It's the best elastic girdle we have ever seen and has several features which are unique.

First, it laces in the back and has a shield beneath the lacing, enabling the wearer to loosen or tighten the corset at will.

Second, it is reinforced with coutil across the front, which prevents stretching.

Third, it has just enough boning to keep it from wrinkling uncomfortably—fairly heavy steels in back and front with three light ones over each hip.

It is made of firm pink elastic of good quality, yet not so heavy as to be hot or uncomfortable in Summer. It is the ideal corset for tennis, golf, horseback riding and all outdoor exercise, as it combines perfect freedom of movement with trim, well-modeled lines.

In 12 or 14 inch depth, \$3. A lighter model with less boning, 10 inches deep, \$2.25. (Central)
