"It's not so bad," see smiles, only explain the inexplicable, to understand the incomprehensible.

Explain the inexplicable, to understand the incomprehensible.

By next morning she had made up the face and eyes that did not dance she confronted her employer.

"Why, I could hardly—well, yes, I'll go," answered the girl, trying to keep that did not dance she confronted her employer.

"Good! I'll be around at 9 o'clock to tomorrow," he replied joyfully.

"Mr. Barrrows," she said hurriedly, "Her home!" she said bitterly as she

Much waste in fabric tires ~ no need of it

HERE are four or five million carowners in this country using fabric thes.

When they see themselves being made a target for the sale of "odd lots", "discount offers", "retreads" and "seconds" - what do they

think? You can hardly blame quality seekers if this kind of situation is getting on their nerves.

Some people seem to feel that the spread of cord tires has made tire-makers and tire-dealers indifferent about fabric quality.

Others have the idea that fabric tires get less attention because they run to smaller sizes.

they feel about it.

The makers of As people say United States Tires everywhere would like to go on record as to how **United States Tires**

They are engaged in serving

They build the most complete line of fabric tires in the world.

This year "Nobby", "Usco" and "Chain" Tread tires are more universally popular than ever before. Because they satisfy a legitimate

need for fabric quality. Neither the size of the tire nor the kind of tire has anything to do

with U.S. Tire standards. Back of every Fabric Tire bearing the U.S. name stands the same quality that has made U. S. Royal Cords the outstanding tire.

This is the logical stand for the oldest and largest

> to take. It builds by policy - or doesn't build at all.
