A Gimbel Furniture Sale appeals to mature, thoughtful people—to people whom it were an insult to approach the buncombe.

For any store to claim monopoly on any good grade of furniture should be unthinkable. But a store's business—its outlet—may have a very real bearing on values. That great outlet we have—in hotel furnishing—and we can and do offer reliable makers material saving in selling costs—we, too, can lay orders when orders count. No business is profitable every day—most factories, however prosperous, pay (in lowed prices) for stop-gap orders.

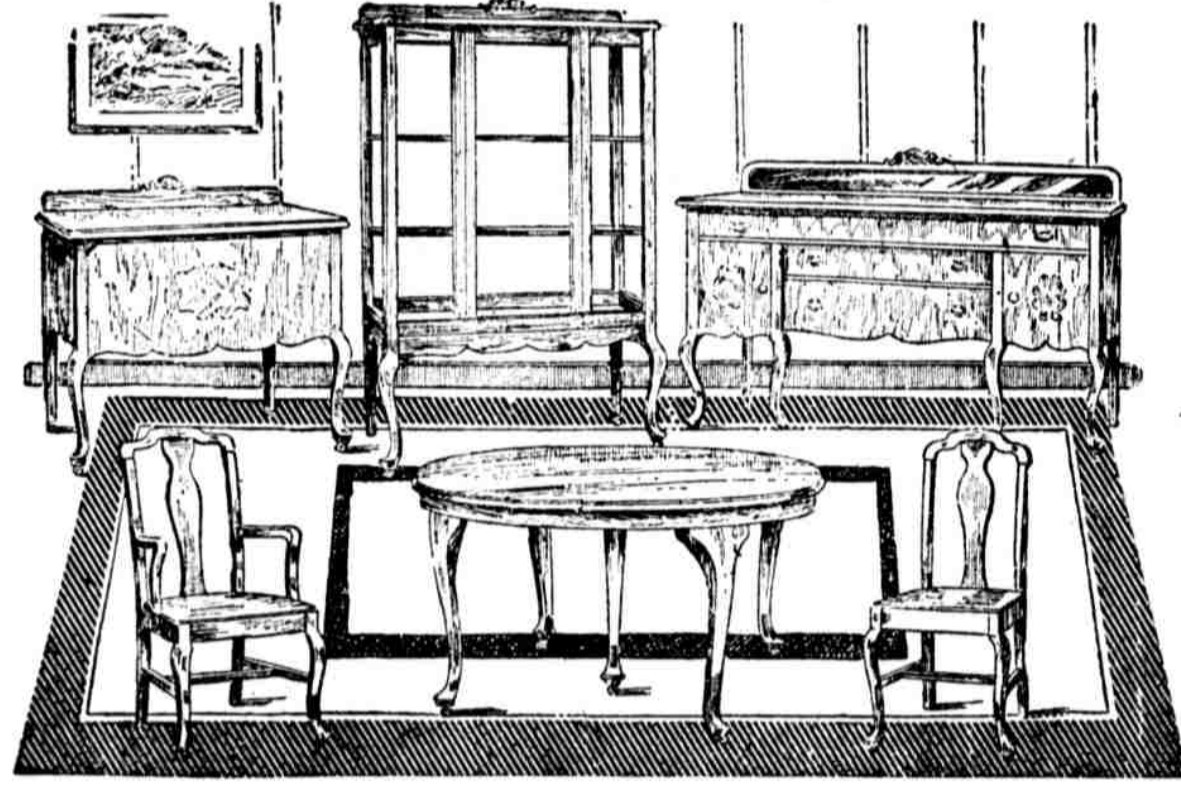

Furniture Prices Crashed to Half Last Year's

Yes, much splendid furniture is here at considerably under half price.

Furniture bought this week billed on September 1.

Partial Payments on furniture cheerfully arranged—with all the sale's advantages left to you.
