THE COUNTRY'S LEADING

SCHOOLS AND COLLEGES

A consistent and constructive editorial policy has won for THE RED BOOK MAGAZINE a definite place in the libraries of intelligent Americans. As confidence in the publication grew, our readers turned to us with their school problems. This led to the inception of the Educational Guide which appears each month in the front of the magazine and in which the country's leading private schools and colleges are listed. Therefore, THE RED BOOK MAGAZINE is today one of the leading educational media of America.

Every school appearing in the magazine, and any school recommended to an inquirer, is carefully investigated by the magazine's Educational Director. The schools appearing in the magazine each month are listed on this page. Information regarding these or any other residential schools of America will be sent to anyone upon request. Our service is free to all, and we are here to help any who need us. Write to
