

### MAYOR PLEDGED AID BY VOTERS' LEAGUE

#### Moore Assured of Backing if He Enters Lists With Vare Combine

#### MUST TAKE ACTIVE PART

If Mayor Moore wants to take the field against the Vares—and it is up to him to lead if he wants a fight this primary—then the Voters' League will back him.

This statement was made today by one of the most influential leaders in the newly-organized Voters' League.

In political circles the talk, following the Mayor's three-hour conference with Senator Penrose on Washington Sunday, was that the Mayor and his active political allies would take the field if they could get encouragement from Senator Penrose.

Both the Mayor and the Voters' League officials feel that Penrose, fundamentally, is against the Vare combine. It is Penrose he is induced to take time from national problems to pitch into the local situation.

Mayor Moore will have further conferences with Penrose. Until these have been concluded it is understood that Penrose will not openly announce the plans of the Vare-Brown-Cunningham combine. Meanwhile Administration leaders will continue their drive to have Penrose smash the deal which has been entered into between the Vares and Thomas W. Cunningham, Penrose leader in Philadelphia, and President Judge Brown.

Vare leaders laugh at the suggestion that Senator Penrose will smash the combine. They boastfully pointed to the fact that Penrose had nothing to say after the Mayor had left him. And they are going right ahead with the stalling of a county ticket. They insist that the Mayor should keep out of politics and that he should not be considered.

As an answer to the Moore-Penrose conference, Vare leaders announced today that W. Freeland Kendrick, Receiver of Taxes, would announce his candidacy in a few days for re-election for a third term. Just as definitely they announced that Thomas F. Watson, chairman of the Republican City Committee, would announce his candidacy for City Treasurer, to succeed Frederick J. Snoyer.

Kendrick will make his campaign for re-election on his record and increase in tax collections turned over to the City Treasurer.

The Vare leaders are leaving the other end of the ticket to be named by Judge Brown and Cunningham, under the guidance of Senator Penrose. Vare men say their end of it is settled. They say further discussing the fight talk, that there will be little or no opposition to Kendrick and Watson.

Moore's Victory Average .000

"The Mayor," said one high in the Vare councils, "has not been able to win a political battle with us since he took office in 1917 when he had Brown and Cunningham with him. What chance has he now?"

Vare leaders, of course, take it for granted that the understanding with Brown and Cunningham will stand, despite the Mayor's talk with Penrose.

Officials of the Voters' League said that if there is to be a fight, the Mayor will have to do more than "sound the alarm." Otherwise the policy of the league for this campaign probably will be confined to informing or declining to inform those who submit their candidacies to the people.

On the other hand, there are those who insist that, as the Mayor has sounded the alarm, it is up to the dependents, such as those enrolled in the Voters' League, to take up arms and fight. It is urged that the Mayor

is not in a position, because of the new City Charter, to engage in active political combat, and that independent leaders should undertake the task of organizing opposition to the combine.

As things stand now, the last day for filing nominations, August 23, is rolling around, and the principal factors in opposition to Vare rule are making suggestions to each other. The Vare forces are going right ahead getting ready for any eventuality.

The Voters' League has opened headquarters at 223 and 225 South Broad street. A meeting will be held this week, when the pre-primary situation may be discussed and an official announcement made as to the league's political policy.

### SUMMER BATHERS WARNED OF EAR-TROUBLE DANGERS

#### Dr. H. S. Weaver Says Swimmers Do Not Remove Water Correctly

The end of the summer season brings its quota of ear troubles and specialists trace most of them to injudicious use of fresh water bathing.

The bathing is alright, they say, but certain fundamental rules must be observed if ear troubles are to be prevented.

Dr. Harry S. Weaver, throat and ear specialist, of 1433 Spruce street, declared today just as much trouble is experienced through fresh water bathing in swimming pools and rivers as bathing in the salt sea. "Every fall we have a large number of cases of ear trouble, abscess of the ear and so forth, and it is almost entirely due to the bathing," he said. "The main trouble is people in bathing do not blow the nose properly. They dive or submerge the head and then blow the nose violently to force out the water."

Now, in blowing the nose, people either use a handkerchief or otherwise retard the air, with the result that a portion of the water in the ear-canal is forced by air pressure into the middle ear. Inflammation frequently sets in and we have an abscess to deal with. In blowing the nose, the nose should never be pinched together or covered by a handkerchief. Then there will be no trouble."

### TAKE ALLEGED DRUG OWNER

#### Man Suspected After "Dope" Worth \$40,000 is Seized

Joseph Belowsky, Melon street near Tenth, was arrested by Federal narcotic agents today on suspicion of owning \$40,000 worth of drugs, seized in a raid early today on a house in Randolph street near Girard avenue.

Federal agents broke into the house at 5 o'clock this morning, arousing the neighborhood.

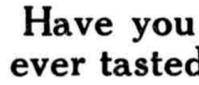

They found a room on the second floor with padlocked doors; broke them down, and seized fifty ounces of a powder believed to be drugs in the pure state.

Mrs. Rose Hart, who keeps a rooming house there, and Sam Hranisky, Eighth street above Poplar, were detained to appear as witnesses. The woman said she had rented the room to a man she described, and whom the detectives recognized as Belowsky. The prisoner is now out on bail on appeal from an eighteen-month sentence imposed in the civil courts a year ago for violating the Drug Act. He got three months in the Federal Prison in Atlanta for the same offense.

### NAB OLD OFFENDER IN CLEMENT THEFT

#### Police Chief Donaghy, of Lower Merion, Recognizes Work as That of "John Barry"

#### MAN IS 76 YEARS OLD

William Baldwin, better known as John Barry, who is seventy-six years old and said by the police to be one of the most expert burglars who ever used a jimmy, was arrested today by Captain Donaghy, of the Lower Merion police, as he left his lodging near Thirty-first and Dauphin streets.

Baldwin was released from the Eastern Penitentiary only on May 22. He had served a ten-year term for stealing \$10,000 worth of silverware from the home of the late A. J. Cassatt, president of the Pennsylvania Railroad, at Rosemont. Captain Donaghy accused him of another theft of silverware, this time \$2,800 worth, taken Friday night from Charles F. Clement's home at Haverford.

The aged man submitted to arrest quietly, saying nothing and giving no sign of recognition, though he more than likely recognized Captain Donaghy and his assistant, Sergeant Mullin, of the Lower Merion force. Donaghy and Mullin have been Baldwin's nemesis for years, the police captain's acquaintance with the burglar going back thirty-five years, when Donaghy and "Bob" McKenty, now warden of the Eastern Penitentiary, were city detectives together.

### Took Nothing But Best Silver

It was the peculiar "emarks" of all Baldwin's "jobs" that led to his arrest today. After the Clement dwelling was robbed, Captain Donaghy was called to look it over. In checking up the losses he was found that nothing had been taken but the finest of sterling silver. "I know the man who did this job, it's old John Barry,"

Captain Donaghy knew that Barry had been sent to the Eastern Penitentiary for a ten-year stretch back in 1912. Sergeant Mullin remembered the notorious \$10,000 theft of silverware from the Cassatt mansion, who had come upon Barry when he was in the act of digging the silver up from a place where he had buried it in the woods.

Captain Donaghy inquired of his old partner, "Bob" McKenty, if Barry, or Baldwin, had been released, and

learned he finished his "bit" May 22 last.

It was not a hard job to trace the old burglar to his lodgings in this city. The police also recovered a quantity of silverware stolen from the Clement home. They had been pawned at a place on Eleventh street, and the pawnbroker identified a rogues' gallery picture of Baldwin as the seller.

### Health-Rest Economy

### "Private Road"

Is your business traveling on its own private road with a gate locked behind you against trespassers or competitors?

If you travel on your own private drive-way you can truly go as you please.

The maker of a patent article or the possessor of secret processes travels a road forbidden to competitors. This autocrat can choose his own gait—crawl, walk or run, or sit down and rest.

However, this choosing of your own gait depends on how securely your competition is barred. If, as in the case of the safety razor, phonograph, the piano-player or aspirin, the patents have expired—then the rate of speed may be fixed by competition.

The very astute owner of a patent travels his own road at a smart gait, anticipating the time when the course may be uncomfortably crowded.

### TWO BOYS ADMIT \$4000 BURGLARIES

#### Lads of 13 and 14 Tell Police of Burying Loot in West Philadelphia

#### MAY BE PUPILS OF MAN

William Thompson, fourteen years old, Forty-fifth street near Fairmount avenue, and John Reiff, thirteen years old, Mount Vernon street near Thirty-ninth, admitted to the police today that they had stolen between \$4000 and \$5000 in cash and valuables from houses entered recently in West Philadelphia.

The boys guided detectives to a cache on the grounds of the Pennsylvania Hospital for the Insane, at a point near Haverford avenue and Forty-fifth street, where \$2500 worth of jewelry, including many watches, was found buried.

The police believe the boys are two members of a large gang of youths, directed by older and highly skilled criminals, who have been responsible for

many important robberies in West Philadelphia.

District Detectives Baker and McDowell, of the Thirty-second street and Woodland avenue station, arrested the boys today. According to the detectives, they admitted having been in the home of Charles P. Kinney, 4201 Pine street, and that of Clarence Muselmans, 4208 Pine street, recently robbed of thousands of dollars' worth of jewelry and other valuables while the families were away. The boys are said to have admitted also robbing the home of Daniel Egan, 4700 Pine street, of \$3000 worth of jewelry a month ago.

Under questioning, the boys said they had taken their loot to a lonely part of the hospital grounds, thrown it over the wall, sealed the wall and buried it. The police believe much of the loot was disposed of by the man or men believed to have directed the boys' criminal activities.

Three other boys, a little older than those arrested today, had a hearing before Magistrate Dugan at the Thirty-second street and Woodland avenue station and were held under \$500 bail each for a further hearing Friday. They were

### The Super-Six Motor

—adds 72% to power  
—adds 80% to efficiency  
—decreases vibration to within 10% of nil, nearer the ideal than any car we know.  
—almost doubles endurance

### What Old HUDSONS Tell of the New

In the old Super-Sixes men see what they may expect of the Hudson they buy today.

A great many of these earlier cars have passed their 100-thousandth mile. A great many are nearing their sixth year of service.

You see them on the street every day. Perhaps you mistake them for cars of recent production.

How smoothly and dependably they meet the most unsparing requirements of steady duty today. How well they compare in performance and all modern essentials to any car with which you measure them.

Yet where will you find cars of other makes contemporary to these old Hudsons? That makes the contrast that gives Hudson leadership.

### More Than 100,000 Owners Know

Those who have had their Hudsons longest are perhaps its most emphatic champions. They know it best. They have seen its easy mastery over every situation that can confront an automobile. Today their Super-Sixes are giving service such as is literally beyond the capacity of many new cars that cost more.

The Hudson of today is a far greater car than those earlier Super-Sixes, yet we are content that you judge it by performance of these older cars.

And Its Unmatched Motor is Exclusive

And do not forget that all Hudson has done was possible only because of the Super-Six motor. It gave Hudson 72% more power and 80% added efficiency.

The most abusive tests to which a car was ever subjected have failed to find its endurance limit. It is Hudson's invention and exclusive in Hudson.

Few have use for such speed or power as Hudson's. But men do want its ability. It meets all but the most extraordinary tasks without taxing half its capacity. And that means freedom from strain. It means extra years of service. It means that Hudsons retain their new car vigor and flexibility when they have become old in point of years and use.
