CADILLAC OF THE MORE

Greatest Value in Europe and America,

Say World's Motor Car Experts

If it were possible to take a census of public opinion in Europe

and America, experienced judgment would overwhelmingly

pronounce the Cadillac far and away the greatest motor car

English, French, and Italian engineers have unhesitatingly

admitted as much—the first American motorist you meet on

the street, no matter whether he owns a Cadillac or not, will

There could not be such a solid body of conviction if every

Cadillac did not deliver everything that is conceded to it by

It is the aim and the ambition of every manufacturer of

good cars in America to secure a share of the overwhelming

Yet the Cadillac ownership remains substantially un-

moved; public opinion at home and abroad remains uncon-

vinced; and the Cadillac continues to be considered by common agreement, the greatest outstanding motor car value in

The simple reason is that the Cadillac case is proven—not once

but tens of thousands of times, and by 110,000 eight-cylinder

cars; not by a few years, but by eighteen years; not by prom-

ise, but by performance which is without peer or parallel.
