The Sun Mounting in the Sky Uses No Drum

to announce its approach, but every flower at its coming is lit with smiles over all its face.

The blossoms on the trees wave a welcome. The tiny seeds of field and forest, like the mangroves, fly with the wind and plant themselves, warmed into new life by the mothering sun.

Some people that appear to be doing but little with their lives are doing more than we know.

Final Prices on Summer Millinery

- All that is left of the originally moderate-priced millinery is now marked to literally next to nothing for quick clearance.

There are red tables, green tables, pink tables, black-and-white tables, blue, brown-no trouble at all to find just the color you want.

Values are astonishing. Think of picking up a pretty little ribbon sports hat for \$2-or a soft little crush hat you can wear all Winter for the same price. Some are even lower. None is now more than \$5though many were two and three times that.

Of course, the prices are ridiculous, but we want room for the new hats coming in.

We Call This the Utility Frock for Women

because it is such a generally all-around useful dress.

It is a sleeveless dress of fine quality jersey, in three attractive models. All of them are silk braided, but they show little differences in the line of the neck, the pockets and the trimming.

It may be chosen in white, tan, brown, henna, navy, taupe or sand color.

With it may be worn a guimpe or a blouse.

And one of the best things about it is its surprisingly modest price of \$13.75—which for a dress so well cut and made, and so good looking, is nothing short of remarkable. (First Floor, Central)
