Questions Answered

Our First Asphalt Pavement. To the Editor of the Evening Public Ledger: Sir—Where was the first asphalt paving done in Philadelphia and in what year?

Hoar's Tribute to Flag

To the Editor of the Evening Public Ledger: Sir—A reader asks for Senator Hoar's tribute to the flag. I inclose it as I copied it.

Yale-Harvard Rowing Matches

To the Editor of the Evening Public Ledger: Sir—To settle an argument, will you state whether Yale or Harvard won the greater number of rowing matches in which the two universities were pitted against each other?

Swing Around the Circle

To the Editor of the Evening Public Ledger: Sir—Who first used the expression "swing around the circle," in the political sense it is now used?

For More Moisture

To the Editor of the Evening Public Ledger: Sir—if the city were to be watered by making every one else pay his own water bill, would it not be better to keep a lot of fire-hoses in good, fat condition, and let them do the job?

A Forty-eight-Hour Law

To the Editor of the Evening Public Ledger: Sir—in answer to "Capital and Labor."

Security and Satisfaction are His, Wherever the Cadillac Owner May Tour Before starting a tour across the continent, it is desirable to know something of the company which built your car, as well as the car itself. In the very broadest sense of the word, the Cadillac is a sound and strongly established American institution. There is probably not another plant in the world as advantageously equipped as the wonderful new works which the Cadillac Motor Car Company has just occupied. The Cadillac has always been a model in manufacturing fitness and fineness, to which manufacturers of high grade cars the world over have gladly paid tribute. The new Cadillac plant insures a degree of scientific exactitude, efficiency, and economy, beyond the fondest dreams of anything attained in the past. Its far-flung system of sales and service puts friends within easy reach for the Cadillac tourist, wherever his fancy may carry him. Back of every Cadillac sold is a solid history of eighteen years of unique experience, hammered and welded into a positive knowledge of how to build a car of the highest grade. Back of every Cadillac is business responsibility—a splendid past, a solidly successful present, a sure, substantial and brilliant future. The knowledge of these things brings a sense of certainty and satisfaction to the Cadillac owner second only to the certainty he feels that his car will do all he expects it to do, and more than he could hope any other would do.
