Women's New Gowns of White **Chiffon and Georgette**

Just out of their boxes are most of these delightful dresses. Many women will want them for afternoon and evening wear from the first of September on.

August 18, 1921.

It is hard to say which are prettiest - the filmy white chiffons or the rich Georgette crepes. From the simplest white chiffon with its flowergirdled hips at \$40, up to the exquisitely crystal - beaded Georgette at \$90, each is a 'creation" in snowy white or ivory. They are much lovelier

owns than it is usually posible to have at these prices. And the prospective brides who are choosing them for Autumn wedding gowns are doing wisely. With the addi-tion of a veil, they will serve

perfectly for that occasion, and afterward be far more serviceable in the trousseau than the wedding gown is usually able to be. Many prices from \$40 upward

> \mathbf{V} OU should buy things, especially such a thing as furniture, with the idea in your mind that you are out not to SPEND your money, but to INVEST it.

THE number of people who buy furniture in that way has been increasing for many years-it has increased notably within the last eight or ten years-and the Wanamaker Furniture Sale has increased in proportion.

FXACTLY as the people have inclined more and more toward furniture possessing the investment quality, the Wanamaker Sale has grown and grown and become the greatest of sales by right of bringing none but furniture of that kind and more of it than any two or three other sales put together.

TN THE Great August Sale now going forward, we find proof every day, practically every hour, that the people are now more than ever buying from the investment point of view.

HEY are looking for furniture that they feel is good to live with and, above all, safe to invest in, and in this sale they are finding an unparalleled choice of it. - 1.2/2. 0404 ... SMIL

About the Frolaset Corset

The Frolaset is a favorite with women who wish a front-lacing corset which fits well in the back. A wide elastic band at the bottom of back is one of the features which mean a snug fit. This corset fits well over the hips, too.

Another excellent point about the Frolaset is that it carries an almost topless model for the fuller figure. Generally the stouter women cannot wear a topless model, but this corset has a specially shaped piece in the back to take care of flesh on shoulders. The same model as elastic inserts in skirt of corset and small inserts at bust, \$13.

Models for fuller figures are firmly boned. Topless models have ery short boning over abdomen, so that skirt can't push up out of
