ammunition. Barges were got rendy to take the battalion of marines to the At the same time the Marine Quar-termaster's Department at Broad street and Washington avenue got busy. Men who had left for the week-end were endnought. summoned back to their posts and 18 ons of supplies were got ready. was rushed to the Navy Yard in trucks and on freight cars and loaded on

The marine contingent was delayed and did not arrive at the Navy Yard until 7 o'clock yesterday morning. The Pennsylvania Railroad, cloaking its ovements with as much secreey as the Navy Department, avoided moving the men through the city streets by shunt-ing the special train around the city and sending it right up to the dock in the Navy Yard, where the barges were tied up. Just after the marines had ar at the yard orders were received that the destroyers were not needed and they were put back to their old duty.

Men Hastily Gathered There was little or no delay after the men arrived at the yard. There was just an hour or two for them to get the kinks out of their legs-after the

train ride from Quantico, and to get a bite of breakfast. The men were in the highest of spirits, even those who gave the half-laughs at canceled leaves. The battalion showed signs of having been gathered together hastily. Many of the men were yanked back from liberty and some others had their passes taken from them just as the from them. taken from them just as they reached out to get them. The companies were built up to full war strength and many ecruits were marching in the ranks were 388 enlisted men and eighteen offi-

At 10 o'clock the men were aboard the barges and the supplies ready on the lighters. Five tugs, one the Kalmia, hastily summoned from Cape May, tied np to the lighters and barges and started down the river to the Pennsylvania. The men were put aboard first and then aided in the loading of the stores. Before midnight everythig was ready

### DEMANDED BY U.S.

Washington, Aug. 22.— The decision taken by the United States, insisting upon adherence to the boundary-dispute decisions of former President Loubet, of France, and the late Chief Justice White, as set forth in a communication to the Government of Panama on May 2, was that, unless of Panama of Stay 2, was that, unless steps were taken in a reasonable time by the Government of Panama 'to transfer the exercise of the jurisdiction of the territory awarded to Costa Rica to the Costa Rican Government, the Government of the United States will find itself compelled to proceed in the manner which may be requisite in order that it may assure itself that the ex-ercise of jurisdiction is appropriately transferred and the boundary line on the Pacific side as defined by the Loubet award and the boundary line on the Atlantic side, as determined by the Chief Justice of the United States, is physically laid down in the manner provided by the terms of the Porrastreaty between the United States and Panama."

The boundary dispute on the Atlantic side, it is understood, has virtually reached the stage of settlement, but no pproach to an agreement has been made on the Pacific side, and the Panama authorities still remain in control of the area awarded to Costa Rica.

The State Department's note deliv-ered to the Government of Panama under date of August 18 is as follows:

"The Government of the United States has received the note addressed by the Government of Panama on August 6 to the American Minister in Panama, replying to the communication handed by the Minister on August 2 to the Gov-ernment of Panama by instruction of the Government of the United States in which were transmitted two requests of the Government of Costa Rica relating to the boundary dispute between the Republies of Pauama and Costa

After the most careful consideration of the statements contained in the note of the Government of Panama above referred to, this Government has reached the conclusion that the argunents advanced in this communication have already been fully answered in previous notes addressed by the Government of the United States to the Government of Panama. It is greatly regretted that it has proved to be impossible for the Governments of Panama and Costa Rica to come to a direct agreement for the delivitation of the agreement for the delimitation of that portion of the boundary between the two republics laid down by the White award. In view of the fact that the Government of Panama appears un-willing to carry out this delimitation in the manner provided in the Porras-Anderson convention, and inasmuch as a reasonable time, mentioned in the note of this Government, dated May 2, 1921, for the reaching of an agreement us to the manner of carrying out this delimitation has already been afforded, there would seem to be no reason why the

#### **How This Business** Grew Up

It was back in 1877 when Major George W. Smith founded this company. He had in mind a modest but competent shop for making time furniture.

The shop grew and it seemed wise to take on other forms of excellent cabinet making.

The business was then extended to include all varieties of interior finish and later extended again to take in the ship joiner work for passenger and cargo ships.

It also went into the manufacture of laminated wood disk wheels on a large scale. Today it has the biggest woodworking plant in the East, perfectly

equipped to do any sort of cabinet work for building construction.

No order is too large for us.

& COMPANY, Inc. 49th Street and Gray's Avenue

Philadelphia

The map shows the strip of land awarded to Costa Rica by the Loubet-White Commission and later confirmed by treaty. Panama has demurred for years against fulfilling the terms of the award, and war between the Central American republics over the boundary was threatened recently. The United States at last has tired of these bickerings and has firmly notified Panama that the terms of the award must be carried out. A force of marines is being sent from Philadelphia to back up Washington's decision and assist the Costa Ricans in event of fighting

#### What Voters League Says About Political Situation

The battle of the good-government forces to drive the contractor combine from its last trenches is

"Standard bearers have been chosen, and go into the fight with the indorsement of the Voters League. They stand for the highest type of citizenship. The issue is clean-cut, the forces of good government intend to make the primaries of September 20 a Waterloo for the Vare ashcart, which has tried to steal back from the political Elba, and thus free the Republican Party in Philadelphia from the coterie of bosses who have arrogated to themselves the right to pick a slate of candidates and then use the party machinery to foist it upon the peo

Government of the United States should, as the friendly mediator between the two Governments or by virtue of its special relations to the Government of EXECUTION OF AWARD Panama, feel compelled to suggest to delay longer taking jurisdiction over the territory which is now occupied by l'anama, and which was adjudged to belong to Costa Rica by the terms of the Loubet award.

"The Government of the United States is now advised by the Govern-ment of Costa Rica that since it considers that the Porras-Anderson con-vention is in force and since it believes that there is no valid reason for delaying its complete execution any longer, it is ready to assume immediately the jurisdiction over the territory above referred to."

#### Mother Rescues 3 Children in Fire

Centinued from Page One the room when she collapsed and fell to

Meanwhile, some one had turned in an alarm. Patrolman Thomas was first on the scene. He was told that Mrs. Long was in the house. A neighbor tossed a blanket to Thomas. He drew it about his head and through a verifiable gantlet of flames he fought his able gantlet of flames he fought his way to the second floor. He reached the street with Mrs. Long a few mo-ments later. His hands were burned He fell to the sidewalk after placing woman in the arms of two women neighbors.

Truck 6, which is stationed at Haverford avenue and Preston street, not far from the Long home, was the first of the fire companies to reach the scene. When Long saw that it was his house ablaze he leaped from the truck before the vehicle stopped and made for the house on a mad run.
"They're all saved." some one shout

"and the kids are eating their breakfast. "Thank Heaven," murmured Long. When the flames had been extinguished

he went to the home of a neighbor where his family had been taken. Long, who was on night duty, was about to leave for home when the alarm

Hungarians Occupy Funfkirchen Budapest, Aug. 22.—(By A. P.)— Hungarian troops have begun the occupation of the city of Funfkirchen, 105 miles southwest of this city. The town is the capital of the district of Baranya, which was awarded to Hungary upon the breaking up of the Austro-Hungarian Empire. There have been no unteward incidents thus far.
