

CO-ORDINATE WORK OF RUSSIAN RELIEF

Americans to Start Feeding 1,000,000 Children and Add to Number Later

HEADQUARTERS IN MOSCOW

By the Associated Press
Washington, Aug. 24.—Plans for a co-ordination of children's relief organizations interested in Russian relief were discussed today at a meeting of the European Relief Council with Secretary Hoover and Colonel William M. Haskell, who is to have charge of food distribution in Russia. Organizations comprising the council are the American Friends Service Committee, which is already at work in Russia, American Red Cross, Federal Council of the Churches of Christ in America, Jewish Joint Distribution Committee, Knights of Columbus, Young Men's Christian Association, Catholic Welfare Committee and the American Relief Administration.

They were asked by President Harding to co-operate in fighting famine among the children of Russia in order that the interests of the people of both this country and Russia could best be served through centralized activity and to avoid the organization of unnecessary associations for the solicitation of funds.

Colonel Haskell said today he planned to sail from New York for Liverpool early next week and to proceed to Russia as quickly as possible after a conference in England with Walter Lyman Brown, European director of the administration, who negotiated the relief agreement with the Soviet authorities at Riga.

SAY HUGHES BACKS CONFERENCE ON OIL

Mexico Expects Recognition to Follow Settlement of Petroleum Question

SUMMERLIN ACTS FOR U. S.

By the Associated Press
Mexico City, Aug. 24.—Negotiations looking to an agreement for a conference between American oil men and Mexican officials were undertaken by George T. Summerlin, the United States Charge d'Affaires here, upon advice from the State Department in Washington, it was understood here last night. Mr. Summerlin began preliminary conversations regarding the proposed conference on August 8, and it was announced on Monday night that a number of the principal executives of

study of local conditions should warrant it. Only general plans have been made, he added, and the method to be used in Russia in meeting the famine situation will depend upon conditions.

At the start, he declared, the administration intends to feed 1,000,000 Russian children, although this number will be increased as facilities and supplies are available. All the work, he said, will be under the direction of Secretary Hoover and the New York headquarters of the administration.

several large American oil companies would arrive here next week to meet Government officials.

Mr. Summerlin is understood to have suggested to the Foreign Secretary that such a conference might prove a means for reaching an amicable settlement of petroleum problems. When the secretary said such a conference would meet with President Obregon's approval, the necessary arrangements were made. Reports current here state that the initiative was taken by the American State Department, which communicated its opinion to the oil men, and met with a ready response. Optimism over the international situation increased here yesterday and predictions were made that recognition would

be extended by the United States as soon as the oil question was settled, which, it was believed, would be before the middle of September.

It was said the American oil men would first meet Adolfo de la Huerta, Secretary of the Treasury, and later would confer with President Obregon.
