

CHURCH FACTIONS IN GRAVEYARD ROW

Oak Lane Baptist Congregation Splits on Plan to Sell Historic Site

LEGAL BATTLE IS ON

Rival factions of the Oak Lane Baptist Church are waging a legal fight over the disposition of the old church and burial ground at Oak Lane and Clifton streets.

The sentimentalists have exhibited a practical turn in the case and, augmented by lot-holders and owners of homes in the neighborhood, will appear before the Sessions Court, September 12, to oppose the appeal of Harvey G. Quarter, attorney for the practical faction, to "clean out the cemetery."

Want Church for Garage

Led by A. P. Desano, some members decided to sell the old church, built in 1833 by the Religious Society of Baptists, and the burial ground adjacent, to the rest of some of Philadelphia's oldest citizens as well as about eighty veterans of the Civil War and the War of 1812.

Some Woodwork Worth Looking At

Several years ago we did the cabinet work and fine interior woodwork of the Manufacturers' Club of Philadelphia.

We are still proud of it, although since then we have done the joiner work and cabin fittings for more than 800 ships and other government craft.

Today, with our new plant and the most modern woodworking machinery, builders are growing more and more to realize that we are better able than ever to produce quantity as well as quality.

Tired of Being Tired?

If weariness overtakes you every day, it may be caused by shoes that bind the feet, that check the circulation, or that cause strain and nervous derangement by encouraging poor carriage. Foot ills and, indirectly, many serious ailments may result from wearing shoes that pinch the muscles, press on the nerves and weaken the arch.

To correct foot troubles, and to increase your comfort and vitality, change to the Cantilever Shoe. It is a trim, good-looking shoe, patterned on the graceful lines of the foot, made of the finest leathers.

Instead of a stiff sole, the Cantilever Shoe has a shank flexible like the foot arch itself. The shoe bends with every step. The muscles grow healthy from exercise. The result is a normal foot, which does not tire from long standing or walking.

The Cantilever last conforms to the foot. The toes are not twisted, but point straight ahead. The foot lies in its natural position, as it would in a moccasin. This, with the correct set of the smart moderate heel, encourages an easy, untroubled posture.

to T. Allen Crowell, one of the lot-holders, were presented to the society by David Tower, an old Philadelphia. The old edifice, offspring of the Frankford Baptist Church and from which sprang the Jenkintown Baptist Church and the First Baptist Church of Germantown, has housed congregations of several generations.

Recently some members of the congregation decided they should move. Services were discontinued and a new church was started at Twelfth street and Oak Lane. Although not finished, the congregation has been holding services there.

The battle now swings on the question of selling the historic old church and burial ground, Desano and others of the congregation recently set the machinery in motion by quietly obtaining a court permit to sell the property. A purchaser was found in the person of George Moehle, Twentieth and Huntington streets, who offered \$3000. The purchaser, it is said, proposes to convert the old church into a modern garage and level the cemetery as a site for a building operation.

Misses' and Children's Shoes Correctly Designed and Fitted

Every pair of Children's Shoes in this great stock is designed over a last that is orthopedically correct, giving proper support where needed, yet permitting the youthful foot to develop comfortably.

We Use the X-Ray Foot-o-Scope

This is the latest development in scientific Shoe-fitting. You can see the bones of the foot right through the shoes. If the foot is cramped or misfitted, the X-Ray Foot-o-Scope shows just where the trouble is, or tells when the shoes are just right. We suggest that you bring the children to be properly fitted.
