DATA TO SENATORS

MELLON GIVES TAX

NAVY ESTIMATES TO BE CUT

By the Associated Press Washington, Sept. 8. - The whole subject of tax devision was up for discussion today between Secretary Mellon and the Senate Finance Committee.

The committee had before it the original suggestions made to the House Ways and Means Committee by the Treasury Screetary, the revised esti-mates presented after the White House tax conference last month and the tax bill as passed by the House. Mr. Mellon went before the committee

without a prepared statement, but ready to answer specific questions on any of hose subjects. For use at the conference and the fu-

ture information of the committee Treasury experts had prepared tables showing estimated receipts from various sources of taxation as well as Government expenditures. These were to be made public after the conference, which

made public after the conference, which was behind closed doors. After hearing the Secretary the Sen-ate committee will begin its task of re-writing the House bill. It has been engaged for ten days in considering each section and hearing a detailed ex-planation from Dr. T. S. Adams, Treasry tax expert. Decisions on the House proposals have been withheld pending the discussion with Mr. Mellon. The biggest cut the Budget Bureau will be called upon to execute upon de-partmental estimates of Government expenditures for the next fiscal year will affect the figures of the Navy Department, it was learned yesterday. The navy, it is understood, is the worst offender among Federal agencies in demanding more than it can reasonably tope to receive unless the forthcoming Armaments Conference ends in utter athure;

Although budget and navy officials declined to disclose the amounts asked for by the navy and other departments it was iscertained that Secretary Denby's staff believes the navy should have many more millions than the \$420,000,000 appropriated for the present fiscal year. Senator Calder, of New York, today

explained to President Harding his pro-posal for inclusion in the bill of a tax on distilled spirits and beer. Senato Calder said he would propose amend-ments to levy a tax of \$6.40 per gallon on distilled spirits and \$5 per barrel on 2.75 per cent alcohol beer. These

new taxes, Senator Calder estimated, would raise \$175,000,000 and enable the Finance Committee to solve a hard problem in its revenue-raising work. President Harding's advice regarding the tax was not sought by Senator Calder, who merely explained his plan

to the Excentive before offering it for-mally in the Finance Committee. Senator Calder said that 20,000,000 gallons of distilled spirits were with-drawn from bonded warehouses during the last year, paying the present indus-trial alcohol tax of only \$2.20 per

gallon, "Ninety per cent of this was used for beverage purposes and Should have paid the beverage tax which was paid by consumers," said Senator Calder.

## **U. S. QUERIES FRANCE**

[It is probable there has been a

mistranslation or miscinterpretation

communication on the German-

American treaty. A treaty, of course,

does not depend for its validity on

recognition by a third Government,

but on the sovereign Powers of the

states concluding it. A request for

recognition of a compact between sovereign states would be something

new in international relations, unless it meant an invitation to adhere to

or be bound by its provisions, which the United States hardly would ask

of France, a signatory of the Ver-sailles Treaty. A Government may, of course, at the risk of amicable re-

lations, object to a treaty between

other Powers or may approve it gen-

erally, but governmental declarations

SEEK HOOCH CACH

ON 2-MILE BEAR

## RUMOR 5000 CASES BURIER

Special Dispatch to Evening Public Lease Cape May, N. J., Sept. S. —Custon House officers today are making a tho-ough search at Two Mile Beach, the miles north of here, in a hunt for a cash of "hooch" which Government official think is hidden there. Nowhere on the New Jersey Const is there a stretch at beach so desolate. Only one house is located there as that is a Government Coast Guard da. Since the holding up of the lone fisher, man on the beach Saturday morning be men who were unloading "hooch" from a fisherman's powerboat into two sate mobiles, there have been many will rumors that more than 5000 cases of "hooch" are hidden there. Captain Albert Chidwell, of the ocean-going steam yacht Onward, will day with an excursion of the Proper-League, said that three miles outbuild of the Delaware Breakwater he an-hiled by a passing steamship and asis if he wanted to buy fifty case of whicky. The skipper said that the man-terious steamship had two masts an that no flag of any nation was flow

whisky. The skipper said that the ma-terious steamship had two masts and that no flag of any nation was for either at the masthead or stern and a name was visible. When instructed a the owner of the Onward, Mr. Harthar ton, to ask the skipper where he hall from, the mysterious vessel's skippe ran to the bridge and signaled fall speed ahead. The ship was soon lost to sight at sea.

sight at sea. It is thought by Delaware Bay and river pilots here that the steamship was one of those that have been supplying the fishing schooners and other craft with "hooch" along the const and that it hailed from somewhere in the Baha hailed from somewhere in the Baham

it bailed from somewhere in the Baham Islands. These vessels have made good the assertion of Governor Edwards that he would make New Jersey as wet as the Atlantic Ocean. Before the advant of prohibition enforcement agents in a raid here Friday it was no trouble to obtain whisky and good gin. The enforcement officers failed to find any "hooch" in any of the cafes or saloons in the city and went away st-isfied that Cape May has been as dry as the Sahara during the summer. Captain Joseph Springer, of the Coast Guard station on Two Mile Beach, said that it might be possible for fishing smacks that go in and out of Cold Springs to land "hooch" on Two Mile Beach without his patrolmer seeing it.
