

### U. S. BABY NATIVE OF SOVIET RUSSIA

Only American Born Under the Present Regime Leaves Country With Parents

#### MOTHER FORCED TO WORK

By the Associated Press  
 Riga, Sept. 15.—Sven Ronald Carlsson, a pale but lively eight-month-old baby, so far as is known the only child born of American parents under the Soviet regime, was among the five American refugees arriving in Riga from Russia yesterday. He is the son of Harold Carlsson, of Chicago.

Carlsson, Mrs. Carlsson, Sven and a nine-year-old sister, and Mrs. Bronislava Dalberg, who also lives in Chicago, made up the party of Americans released by the Soviet Government under the terms of the agreement with the American Relief Administration, who reached Riga yesterday.

Mr. Carlsson was extremely emaciated as a result of his experiences in Russia, but Mrs. Carlsson and the little nine-year-old girl, who has spent most of her life in Russia, looked well.

The Carlssons and Mrs. Dalberg are virtually destitute, having sold most of their belongings from time to time, in order to live. Mrs. Carlsson, referring to her husband's appearance, said it was "a good advertisement for Soviet Russia."

Mrs. Carlsson, according to her husband, was forced to work in a Bolshevik public dining room and could not obtain permission to cease her work until a fortnight before little Sven was born. Then she had to return to her duties six weeks later.

Of the few Americans remaining in Moscow, according to Mrs. Carlsson, a majority of them are so old and so accustomed to Russia that they probably will stay there, fearing to go home and take their chances in a new life. Carlsson and his family are going from Riga to Sweden for a visit, after which they will sail to America.

 Harbin, Sept. 15.—Another bloodless revolution is imminent in Vladivostok. It may be a matter of a few days or it may be in a few weeks, but trustworthy observers say it is bound to happen. The partisans at Habarovsk already have served notice on the Coppelists that resistance when the Merkuloff Government—which at present controls Vladivostok—is unseated, will mean that there will be no amnesty granted.

**Is there a green spot on your neck?**  
 Too many men have an ugly green spot on their neck caused by the brass in their collar button coming in contact with the skin. Few would care to admit the ownership of such a collar button when it is generally known that a Krementz 14-kt. rolled gold plate collar button costs but 25c and is guaranteed for life.

Of the same quality, sold under the same guarantee, are Krementz loose links \$2.50—\$3.50; soft collar pins 50c—\$1.50; correct evening jewelry sets \$7.50—\$17.50. Each piece is stamped on the back "Krementz."

Krementz jewelry naturally is confined to the better shops.
