Lieutenant of Gompers Denounces Followers of "Fiery Cross" as Enemies of American Ideals and Fomenters of Class Feeling and Discord

THE Ku Klux Klan, Inc., while pumping the virus of racial and religious prejudice throughout the Nation, makes use of poisonous propaganda

against the Jews. Evidence of these whispered or outspoken maledictions can be found in the Searchlight, the Atlanta publication which has on its mailing lists a multitude of Grand Goblins, King Kleagles and other functionaries of

Just as the Klansmen mask their identities behind hoods and gowns does the order shroud its anti-Semitic attitude behind anonymous signatures in "contributions" to the Searchlight, which is mailed to all the States in which the "Invisible Empire" has gained a foothold.

One of the vicious attacks made on the Jewish people is that agitators of that race are plotting to create a war between the whites and the Officials of Fifth Division and Suspects Captured After Joseph Negroes, to destroy the American Government.

The Jews now, the allegations go on, are interested in overthrowing Christian Russia and, through the Third Internationale at Moscow, are working to destroy all the Gentile Governments of the world.

With this object in view, the allegations continue, Jews are boring their way into every Government on earth except the Governments of China and Japan. Another aspect of the Klan's activities, its relation to labor, is attract-

ing attention and condemnation. Workers in some sections of the country have been threatened with bodily injury for insisting on the maintenance of tion of the Ku Klux Klan, as exposed wage scales. The Negroes also receive a full share of Klannish attention. The

attitude of the Klan overlords toward all men but those eligible for "naturalization" under the "Emperor" is flamboyantly set forth by the "Imperial Chaplain" of the order. By manipulating hatred, bigotry and intolerance while professing

"100 per cent Americanism" the Klan's kluckers of "Imperial," "Grand" and "Kingly" degree are busily engaged in extending the frontiers of the

## WOLL'S WARNING TO LABOR

Washington, Sept. 16 .- Warning to organized labor against the conduct of the Ku Klux Klan and its antagonism to trade unionism was issued today by Matthew Woll, vice president of the American Federation of Labor and close associate of Samuel Gompers in determining labor policies. Mr. Woll called upon the Federal Government to make a thorough investigation of Ku Kluxism and its operations. His statement reads:

"Ku Kluxism as preached by its self-styled Emperor and as practiced by his followers is a menace to American freedom. The very title of the principal official shows its un-Americanism. There is no room for any Emperor in America.

"I am satisfied that it would be impossible to find a trade unionist who belongs to the Ku Klux Klan. Trade unions stand for democracy; the Ku Klux Klan stands for a sneaking, cowardly autocracy, working in the dark, striking under cover, making one pretense here and another somewhere else.

"The conduct of the Ku Klux Klan in the Northwest should be sufficient to warn every labor man of what the spread of this Klanishness may mean. In that great section the Klan has been bitterly hostile to trade unionism, and I have no doubt will be, when opportunity offers, just as bitterly hostile elsewhere.

"In portions of the South the Klan has been driving Negroes to work, regardless of wages and conditions. It is an outrageous institution, abhorrent to every American principle. In the Klan there is a vicious principle swathed in a mass of ritualist buncombe. Its greatest attraction is for the credulous, the superstitious, the vain and the

"The United States Government, through proper agencies, should investigate thoroughly the whole range of Ku Klux operations. There is no room for an Invisible Empire in a democracy, and I am satisfied that the whole voice of trade unionism demands its eradication."

Other labor leaders indorse the statement of Mr. Woll, among them Thomas Flaherty, of the National Federation of Postoffice Clerks.

There was hope that De Valera would ask his people for a new mandate, and that a plebiscite in Ireland would result in favor of the acceptance of Dominion home rule, but even the Irish Nationalists, according to expressions alists, according to expressions from them received here in Dublin, believe now that the result would be contrary o English expectation.

It is pointed out that Lloyd George's ceply to De Valera left an opening for the continuation of the discussions after the Cabinet had decided what should be done, but the preponderance of opinion here is that there can be no further concessions by England. The Governnetween' for the North and South, Furment, it is thought, may therefore de-cide upon a general election to obtain sublic.
