

WOMAN, 8 CHILDREN ARE SAVED IN FIRE

Seven Families Driven From Homes in Warehouse Blaze, North American Street

TWENTY HORSES RESCUED

A woman and several children were rescued and seven families were driven from their homes when fire swept the third floor of the warehouse of Segal & Co., at the rear of 324-26-28 North American street, last night.

Mrs. Dora Alexander, 320 North American street, rushed into her smoke-filled home and carried three of her six children to the street. Neighbors aided the other three to safety.

Firemen rescued Mrs. Catherine Catalano and her two children, 322 North American street, after they were overcome by smoke, which poured into their home from the burning buildings.

Twenty horses were taken from the stable of Goldstein Brothers, at 325 North American street. Hysterics seized police in leading the animals to safety, when it was feared the flames might reach the stable.

Firemen were hampered in their fight due to the fact that they could reach the burning building only through a narrow alley.

Smoke and water damaged the stock of Brown Brothers, fish dealers, who occupy the first floor of the warehouse building. The loss is estimated at \$5000.

KILLED IN FALL FROM ROOF

While repairing the roof of his home, 7701 Brewster avenue, late yesterday afternoon, Harry Mals, fifty-four years old, slipped and fell to his death.

Dr. Saylor, of Eighty-fourth street and Eastwick avenue, in reporting the case to the police of the Sixty-fifth street and Woodland avenue station, declared death to have been caused by a broken neck.

Bricks for Revenue.

IN BUILDING for investment, you must get the greatest revenue-producing power in proportion to the cost.

And the only way to get that power is to build with common brick. Whether prices are down or up, common brick is the cheapest fireproof building material made. Therefore brick houses yield the largest return for the cost, and so increase in value faster than houses of other material.

Brick houses are now in great demand, and yield large revenue in rents; yet common bricks are cheaper than they have been for years.

Build houses now.

When you want any information about bricks, their kinds, colors, qualities, styles, uses or prices, the products of different makers, how to work specifications, names of competent architects, builders, engineers, etc., call up either of our offices.

The Music of the World Is Yours With a Really Good Player-Piano

Any class of music--- and that you can play with the spirit, fervor and feeling of the composer. That statement is absolute--- for player-piano rolls of the worthwhile music are "phrased" or "marked," so that a ten-year-old child, who never took a music lesson can play the composition correctly.

The rollicking music that one plays from the sheer joy of living---probably to guide dancers---needs little "phrasing"---simply the utterance of a good-toned piano.

These powers and pleasures are yours with the---
