STATISTICS POINT TO VICTORY FOR YANKEES, SAYS FIGGER FILBERT

Records of Previous World's Series, McGraw's Failures in Titular Contests, American League Edge and Luck Seem to Favor Huggins

> By ROBERT W. MAXWELL Sports Editor Evening Public Ledger

GATHER around the table, have both ears and eyes cleaned out and open wide. Old Man Figger Filbert just stumbled in and slipped us the grand dope and we are now able to pass along the tip on the big series. Get in on it. The Vanks are going to win the series!

The clusive figgers have been chused thither and you and back again before this startling conclusion was reached, and also the percentage book

was the subject of considerable punishment during the cross-country chase But at last the dope has been cornered, our and dried and ready for digestion. We trust ptomaine poisoning will not result Mr. Figger Filbert, alias Evnie Lanigan design by the office boy yes

terday, and before any one knew it was resting an cibow on the rolltop. This was surprising, because 'most everybody thinks our rolltop was made to sit on. His introductory remark was baseballic, as usual, "Who's going to win the series?" he asked. Being one of those guys

who ask and answer their own questions, he gave the decision before we had a chance to say we didn't know. "The Yanks are going to win the series." This was startling information from the figure filbert, so he was urged

to continue, but he needed no urging. "The statistics prove beyond doubt that the Yankees will be crowned World's Champions. The series will just seven days, which means that the Giants will cop only two contests. Metican's club will win the first game and will repeat on Friday, but the Yams will get into the winning on Thurs-

day and after Friday will land four in a row."

Ernie shifted his position and placed two cheeks on the rolltop. We don't mind anything like that, of course, but objection always is made to any one sitting on the desk. Resting comfortably, he got his second wind and went at it again ..

"It's easy to dope the thing out once the statistics are at hand. I have gone over the entire season and have discovered that the Giants have won more games on Wednesday than the Yankees. Therefore McGraw is going to take the first game. However, Huggins was been more successful on Thursday than the National Leaguers, so the Yankees are going to win their first game on that day. The same statistics point to a Giant triumph on Friday and to an American League win on Saturday, Sunday, Monday and Tuesday. That's how I reached the conclusion I did.

"THE Yanks are going to win the series."

Friday Big Day for Giants

STATE Giants will have their biggest day on Friday, and it should be it A opsided victory. Fridays have been very lucky for the National Leaguers, as they have won thirteen games and have lost only four on fish day. This gives Robinson t'rusoe's man an average of .765. Wednesday is two days before Friday, but it follows Friday in favoring the Giants.

"McGraw's athletes have won seventeen games on Wednesday and lost only six. This gives Wednesday a percentage of 730. Then it was on Wednesday, August 24, that the Giants per themselves in the race by twice sinking the Pirates. On the previous Wednesday the Reds had been defented. Since August 17 the National League champions won every Wednes-day game and twice celebrated the day by sweeping both ends of doublebeaders into their win column. So you see what a chance the of winning the opening game for the title

"The most successful day for the American League titleholders is Saturday. Nineteen games were won on the week-end by Huggins and seven lost. for an average of .731. This proves that the Guants haven't a chance in fourth game of the series. Thursday also was a favorite with Babe Ruth and his playmates. Fifteen contests were captured and seven dropped. "Wednesday has been more than half good to the Yankees, but yet not good enough to show in their favor as compared to the way it has treated the

Giants. The Huggins sluggers have not lost a game on Wednesday since August 10, and this shows one more victory than the McGraws in the same stretch, but on the season the National Leaguers have been more successful on Wednesday than their World's Series rivals. "Tuesday has been the booden game for both claim, but that day has

produced an even .500 percentage for the Yanks and only .429 for the Giants.

GIANTS		, inche	1 44	YANK	4

				. ,			

CTHERE you have everything in the dope on the way the clubs have I played on various days, and now you know why I reached the "The Yanks are going to win the series."

American League Leads in Titles

THE figger fillers shifted again, pulled out the appewriter stand of the desk A and sat down. He took a deep breath and was off again before we could

"That's not all." he said for a start: "If you look over the winners of previous World's Series you will discover that the American League has won the title eleven times in the seventeror interleggia contests. You don't have to be a figger expert to see that the portait a wall, which I must be want of saying the National League, has been victories only six time. This also points to a Yankee triumid.

"The American Lengue has ween an consecutive years since and including 1915 with the one exception of 1910, and not will recall the very poculiar olor surrounding that series. The Boston Braves took the world's title in 1914, and also there were some cast's rumors following the downfull of the Athleta's that season, but we want outer into a discussion of that.

Prior to Ifti i there were four victories for Ban Johnson in straight years. The Printes won in 1900, and thit could a three-year reign of the older circuit. The Red Sex won the first serve in 1900. There were no contests the following year, but in 1905 Matts trimmed the A's for the Glants and the National League. The next season the White Sex heat the Cubs in the first intracity baseball war. In addition, the Giants have timished second in five out of six series attempts.

"To sum it all up, the dope is this: The days of the week, the results of all previous series, the outcome of the only introduce contests for the big title and McGraw's record all favor the American Leaguers. There's noths

Ing to it.
"The Yanks are going to win the series!"

WITH this off his chest, the figger fibert shifted again. Fearing he was going to plant himself on the deak, we harriedly offered a chair, but his speech was over and he made his bow. Also his exit. Copyright, 1921, by Public Leager Company

Perfection of Plays Secondary to Work for Better Wind Among Princeton Athletes

PLAY COLGATE SATURDAY

By JACK STRUBING Former Princeton Quarterback

The Princeton athletes this week are putting in one of the hardest of the Searon. The game on Samuels do with Colgare, but this is not the reason why the Tigers are being subjected to such a severe drilling. The Navy game, which is sure to be one of the temphest on the schedule, is slatestfur throber 15. Bill Roper, the Tiger head couch, was not at all satisfied with the condition of

ils players as shown in the Swarthmore

"Princeton's greatest fault in the pening game." said Roper, "was lack f wind. I was astenished by the way the men's tongues hung out at the end of the first five minutes. It was not an excentionally warm day and there was no excuse for the lack of wind. It on I dappen again.

Wind Is Necessary

A tenn that has to slow up to enteh his breath every three or four minutes a going to fall behind at each paner. ond wind is a result of good condition, unbined with strengthening of the wind will give a man a vast amount

more wind.
