

DAUGHERTY TO AID HOUSE KLAN PROBE

Department of Justice Experts and Evidence Gathered Placed at Congress' Disposal

TO RUSH INVESTIGATION

Washington, Oct. 5.—Attorney General Daugherty has announced that to "concentrate, simplify and expedite" the proposed investigation of the Ku Klux Klan by a congressional committee, he has offered to Chairman Campbell of the House Rules Committee, all the evidence obtained by the Department of Justice and cross-examiners to question witnesses.

He said it would be well for Congress to act early for action now "may stop a lot of crime," and crimes and worry and anxiety. "The earlier and the more the investigation the better," he added.

This means a drastic and thorough inquiry by Congress into the purposes, practices and records of the Invisible Empire. Mr. Daugherty promised full co-operation with the House Rules Committee and later an investigating committee. He indicated that already expert investigators are busy in the various States picking up evidence.

Plan Is Approved

The suggestion that the Attorney General's men to be used by the House Committee to examine witnesses who appear voluntarily or under subpoena in such inquiries, but not to cross-examine some of the witnesses, was approved by the House today. "We do not propose to dictate to Congress in any way, but I saw Mr. Campbell and told him what we would be glad to do," said Mr. Daugherty.

The Attorney General's attitude is that there is no room in this country for a superhuman law enforcement order that acts behind a mask. He said the American people believe in seeing the face of the man who enforces the law, and there is no excuse for parading under a robe or hood.

Vote for Probe Larger

The declaration of Mr. Daugherty will make the vote for the Ku Klux inquiry larger and more pronounced.

URGES SERVICE AIM FOR TROLLEY CO.'S

Babson Says Lines Will Be Rehabilitated When Operated for Public Good

BOSTON'S PLAN EXPLAINED

Atlantic City, Oct. 5.—"In the re-adjustment of the last few years the street railway followed the history of all our other modes of transportation," declared Roger W. Babson, internationally known financial statistician, of Boston, and principal speaker before the American Electric Railway Association here this morning.

"The horse-drawn buggy, the roller skate, the bicycle, the automobile and the trolley each have had their day and turn as a fad, followed by reaction. The readjustment has meant necessarily the elimination of large amounts of capital employed to satisfy a temporary and freakish demand."

"The future of the street railway depends on its treatment from the proper standpoint—that of the public utility. It has ceased to be the public's plaything."

Service, Not Profits

"The right road for the street railway is the prodigal's road back home. As an investment it is being and will be rehabilitated whenever it is operated as a local community enterprise for the public good—for service and not for promotion profits."

Service-at-cost operation of the Boston Elevated Railway in the last three years has made possible public service that would not have been possible under the ordinary State regulation plan, Edward Dana, general manager of the

SPROUL URGES OBSERVANCE OF FIRE PREVENTION DAY

Proclamation Stresses Importance of Instruction in Schools

Harrisburg, Oct. 5.—(By A. P.)—People of Pennsylvania were today called upon by Governor Sproul to observe October 10 as fire prevention day, the Governor laying emphasis upon the importance of systematic instruction in schools as a part of the observance. In his proclamation the Governor says: "The increasing and needless destruction of our country's resources by preventable fire is a challenge to our future prosperity. In spite of our costly experiences of ruinous conflagrations during the last half century and our present great need of conservation, the burning up of our created wealth, with attendant heavy loss of life, goes on apparently unchecked."

"Over \$1,418,000,000 of our resources were destroyed by fire in the five years from 1915 to 1919, inclusive. Excepting for the year of the San Francisco catastrophe, 1920 witnessed the greatest year's loss we have ever suffered, with a total of \$500,000,000. But greater than this penalty is the loss of human lives. Approximately 15,000 persons, mostly women and children, are burned to death in the United States each year, and a still larger number are seriously injured."

"The prevention of this sinful waste is unquestionably one of the high duties of citizenship. It affects the welfare of each one of us and the future greatness of America."

Therefore, I, William Cameron Sproul, Governor of the State of Pennsylvania, do designate and proclaim Monday, October 10, 1921, as Fire Prevention Day, and I urge every citizen of this State to take an active part in making this day and period of practical value to that end.

FRANKLIN SOCIETY ELECTS OFFICERS

Albert Leon Hydeman was elected president and Charles F. Women's Fine Worsted Jersey Suits at \$18.75

In black, navy and brown, and heather mixtures in green, brown, blue and Oxford gray. Made in trim, well-tailored belted styles, some with inverted plaits; patch pockets or tailored pockets; notched collars. One model shown in the sketch.

Remarkably Good-looking Suits, \$25.00 to \$40.00

Entirely different grades of Suits from those at \$25.00 to \$40.00 last year. Of cheviot, silver-tipped burella cloth, tweeds and wool velour; belted and unbelted; straight-line and flared, plain and plaited, notched and convertible collars—ever so many different models.

Suits, \$47.50 to \$65.00

More elaborate models of such elegant materials as drivel de laine, broadcloth and moosage, some on slightly fitted lines, some straight-line effects, plain and plaited models, models that can be worn with or without the belt. Also handsome fur-trimmed and embroidered Suits among these.

Special Purchases of Women's Coats, Including Some Samples Greatly Under Price at \$15.00 to \$75.00

TWO HUNDRED COATS, of the most desirable fabrics of the season, and in the best styles and shades—remarkable value at each price. Some have collars of fur, others are attractively trimmed with stitching. Nearly all are silk-lined. Chiefly medium sizes, with a fair showing of other sizes. However, owing to the loose, easy line fashionable this season, Coats are very adaptable to larger or smaller figures.

Women's New Wool Jersey Dresses at \$18.75

Made in the smart slip-on style shown in the sketch. In black, navy, brown and heather trimmed with jersey in contrasting shades. All-around utility Dresses of unusual smartness.

Tricotine and Serge Dresses, \$13.75 to \$30.00

It has been many a long day since we have had an assortment of Dresses like these at such low prices. Divided-tunic and coat models and straight-line effects, beaded, braided, trimmed with self material in a contrasting shade, beautifully tailored on simple, long, slender lines. A wonderful collection of smart styles. Black and navy blue.

Some Lovely New Silk Dresses, \$18.75 to \$22.00

Slip-on and tunic models, in navy, brown and black—some in vestee style. Some of the last models to arrive have the herringbone stitching, others are smartly trimmed with self material.

Thirsty Fibre Is Distinctively Himself

—leaving no basis for comparison between ScotTissue and ordinary paper towels. Drinking four times his weight in water and making ScotTissue a towel that can't be copied—a towel uniformly white, soft, satisfying and instantly absorbent.

Absorbency, and absorbency alone, determines towel value—cost per user is the only basis for real economy. Thirsty Fibre clearly proves the wisdom of buying absorbency instead of paper—and Thirsty Fibre is found only in ScotTissue. One towel dries the face, another the hands—each ScotTissue Towel does the work which two less thirsty towels may or may not accomplish.

Meet Thirsty Fibre face to face—don't merely take his drying power for granted.

An Unusual, Convincing Trial Test

The right way to test the economy and satisfaction of ScotTissue Towels is to arrange to have a trial test conducted in your wash-room in competition with any towel you may be using. ScotTissue Towels are distributed through the jobbing channels and any ScotTissue jobber is authorized and qualified to make the trial test.

In addition we will gladly arrange to have a towel efficiency expert discuss towel or toilet paper service with anyone who is interested in improving service and lowering annual costs, by addressing:—
