First to Show the New Things and First in So Many Other Respects!

To Be on Time Is a Habit Well Worth Cultivating

The very smallness of the matter of being five minutes late makes it less excusable.

Hurry is the child of unpunctuality, rocrastination and irritability.

To pay a fine for the five or ten minutes late would not be any compensation to a dozen other men kept waiting with other engagements to fulfill. We haven't any right to throw things out of gear.

No one should be considered eligible for a place on a committee or a board who is a chronic behind-timer.

What kind of a Store would this be if it were not on the minute with its fashions and fabrics?

Capes Have a Way With Them

And that way is certainly a fascinating one, for many women are buying capes these days for sports wear.

The greatest favorites are tweed capes, cut very full and circular in shape; usually they are in one piece. They have large arm slits and straps to cross in the front and keep them in place when worn open.

They are just the thing for motoring or to wear over the sports suit, and many women like them for rainy days. Some are made in our own factory. The materials are soft-toned mixtures in browns, tans and greenish shades, and indistinct

plaids and checks. The prices are most moderate-\$35, \$37.50 and \$45. (First Floor)

Presenting an exclusive collection of the

Silks and Woolen **Materials**

-adapted for Winter Fashions by CHERUIT, LANVIN, RENEE, the CALLOT SOEURS, and other well-known Paris Couturiers

A new and glorious achievement has been attained by France in the silks and other materials which her foremost artists and weavers created and made for this season's fashions.

America each season receives many of the new Paris fashions. In fact, the Wanamaker Store always imports large collections of original Paris models.

But we have taken a step forward this season and hurried here the identical silks and woolen materials that the couturiers adopted, so that the women of America might also have these exquisite materials without having to purchase Paris costumes.

A unique feature of the collection is that there is only a dress or manteau length in each material or color. Tomorrow we shall present the first shipment, just off the steamer.

From the Great Master RODIER

Serge Kasha

-his newest weave in cashmere wool. It is even finer than his famous Kasha cloth. This material was given prominence in the collection of the Callot Soeurs.

Raillaine

—the superb corded material which gave distinction to manteaux by Cheruit, Callot Soeurs, Paquin, Rolf and other couturiers.

Perllaine Manteaux

-another wonderful material for sports and day wear.

Les Clans Perllaine

-the startling plaids which Jeanne Lanvin, Paul Poiret, the Callot Soeurs, Jenny, Georgette and Dorat introduced so successfully in coats.

Les Pekins Perllaine -the same weave, but striped.

Perllaine Dentelee

—a similar material, but with a unique border.

This exhibit will be presented in the Dress Goods Salon on the First Floor, beginning tomorrow.
