DAZZLED BY FRIEND HER LETTERS SHOW

Missives to Friends Tell of Displays of Wonderful Jewels

MRS. DRISCHMAN'S STORY

Special Disparel to Receive Public Ledger Atlantic City, Oct. 7 .- The letters of the late Allie Genry Griswold, writ-ten when her daughter, Countess Anna St. Ciair da Centubia, now fighting for her estate, contends she was held a virtual prisoner here by those who designed against her fortune, are being read in court here today. These letters to relatives, to friends and to ne-quaintances are being produced by lawyers for the countess in an effort to prove their contention that Mrs. Griswold either was mentally unable to make a proper will or that she was unduly influenced in making it. The letters, written in 1918, tell how

the letters, written in 1918, tell now the dead woman, once a court beauty and the pet of Europe, was dazzled by the wife of a butcher, who "washed and scrubbed for her own amusement," according to an extract from one of the letters written by the woman now dead to a friend in Baltimore.

BLAME PUT ON MAJORITY

Excuses for Killing Much-Needed \$19,000,000 Loan Shattered by Financial Experts

By THOMAS J. WALKER

Mayor Moore, with his directors, is preparing a detailed statement which will show that Vare leaders in Council are trying to bunk the neople when they say new loan funds are not needed for further public works

The Vare men, headed by Council nen Hall and Gaffney, have used the dangling bookeeping figures of City Controller Hadley in an attempt to justify the killing of the Administration's proposed \$19,000,000 loan. They assert that the Administration has upward of 822,000,000 of previously authorised

loan funds which could be used.

The Mayor intends to show that this so-called unencumbered loan money is only unondumbered so far as the books in the Controller's office are concerned. As a matter of fact, say Administration leaders, the so-called unencumbered fund of \$22,000,000 is definitely tied up in one way or anoth

New Loan Is Necessary

The additional and new loan, they point out, is necessary to carry on and develop the city's comprehensive program of putting public work under contract as soon as possible, for the benefit of the municipality and for the relief of unemployed capital and labor. The Mayor has facts and figures which show that the \$22,000,000 is tied

up in these ages Elermarked for definitely named proj eets and therefore not available

anything else. Tied up by litigation Tied up by dependence of co-opera-tion with outside interests, as in the case of removal of grade crossings and building of Delaware River bridge.

Tied up by being held subject to fu-ture legislation by the Vare-controlled Further hungreds of thousands, if not millions of dollars of work, are being prepared for, by the drawing of dans and specifications, and yet these uge sums are listed, according to the technique of the Controller's report, as

unencumbered, slugdy because they have not yet been put under contract.

Plenty of "Paper Cash" Vare lenders, with the expert accarting ability of Controller Hadley as their inspiration, for days have been about Council chamber, as if the Administration were rolling in unused wealth up Controller Hadley's last report and

"Look at this: Lean funds unencum-bered, \$97.158.638.97.1 Why ask more money when we have all these unen-curbered millions." Here is a here the Mayor and hts circutors, dealing with facts, begin to tear of the cell of bin-outh. First, there is to be deducted from a sum of \$97 mm,000, \$4,000,000

charges to county offices under the con-trol of Vare leaders; nothing is said theat tide to the vedfarations in Coun-Teat have approximately \$93, test take of least trans-

Transit Takes \$53,000,000 Then there is to be deducted \$53. usur that which is definitely earmarked

sed by the Administration in the preslean fried to be accounted for. It is this same which the Mayor will show is tied up in one way or another. Robert D. Harper, which clerk to Mayor Moure, the is amassing the wealth of detail with which the Mayor
