Nansen Says Soviet is Dealing Honestly With Gifts of Food

London, Oct. 7.—(By A. P.)—Efforts to save 10,000,000 Russians from starvation will fail unless \$20,000,000 is raised before Christmas, declared Dr. Fridtjof Nansen in an interview with the Daily Herald last night.

Dr. Nansen, who is in London for the purpose of furthering measures for the relief of Russia, asserted the solution of the world problem of unemployment was to be found in combating starvation in that country.

Nansen confirmed from his own observation the dire need of Russia, and emphasized that the Soviet Government is dealing honestly with all supplies sent to that country, no food being distributed among the troops. He stated that the nations which already have granted assistance, but declared this aid was not nearly enough to meet necessities.

"It is a pity," he said, "that with Argentina burning her spare grain in furnaces, America wheat rotting in granaries and Canada's bins bulging with 2,000,000 or more tons of corn that she can use, these Russian millions should die of starvation."
