## **Beware of Tender Gums**

Unhealthy soil kills the best of wheat. Unhealthy gums kill the best of teeth. To keep the teeth sound, keep the gums well. Watch for tender and bleeding gums. This is a symptom of Pyorrhea, which afflicts four out of five people over forty.

Pyorrhea menaces the body as well as the teeth. Not only do the gums recede and cause the teeth to decay. loosen and fall out, but the infecting Pyorrhea germs lower the body's vitality and cause many serious ills.

To avoid Pyorrhea, visit your dentist frequently for teethandguminspection. And use Forhan's Forthe Gums.

Forhan's For the Gums will prevent Pyorrhea-or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's will keep the gums firm and healthy, the teeth white and clean. Start using it today.

> Brush Your Teeth With Forhan's-How to Use It Use it twice daily, year in and year out. Wet your brush in cold water, place a half-inch of the refreshing, healing paste on it, then brush your teeth up and down. Use a rolling motion to clean the crevices. Brush the grinding and back surfaces of the teeth. Massage your gums with your Forhan-coated brush -gently at first until the gums harden, then more vigorously. If the gums are very tender, massage with the finger, instead of the brush. If gum shrinkage has already set in, use Forhan's according to directions, and consult a dentist immediately for special treatment.
