The Dread Pyorrhea Begins With Bleeding Gums

Pyorrhea's infecting germs cause many ills. Medical science has proven this.

Diseased conditions, which not long ago doctors were unable to trace to a cause, are now known often to be the result of Pyorrhea germs that breed in pockets about the teeth. Rheumatism, anaemia, nervous disorders and other diseases have been traced in many cases to this Pyorrhea infection.

Don't let Pyorrhea work its wicked will on your body. Visit your dentist frequently for teeth and gum inspection.

And watch your gums yourself. Pyorrhea, which afflicts four out of five people over forty, begins with tender and bleeding gums; then the gums recede; the teeth decay, loosen and fall out, or must be extracted to rid the system of poisons generated at their base.

Forhan's For the Gums will prevent Pyorrhea—or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums hard and healthy—the teeth white and clean. Start using it today.

Brush Your Teeth With Forhan's—How to Use It

Use it twice daily, year in and year out. Wet your brush in cold water, place a half-inch of the refreshing, healing paste on it, then brush your teeth up and down. Use a rolling motion to clean the crevices. Brush the grinding and back surfaces of the teeth. Massage your gums with your Forhan-coated brush—gently at first until the gums harden, then more vigorously. If the gums are very tender, massage with the finger, instead of the brush. If gum shrinkage has already set in, use Forhan's according to directions, and consult a dentist immediately for special treatment.

35c and 60c. All druggists.

NEEL-CADILLAC SERVICE HOME

A six-story modern concrete building, one hundred and eighty feet by one hundred and ten feet in depth, located at Twenty-fifth and Locust Streets, is the new home of Neel-Cadillac service facilities in Philadelphia.

CADILLAC permanency in the Philadelphia territory has a sturdy re-enforcement in the opening of a modern six-story concrete service building at Twenty-fifth and Locust Streets, Philadelphia.

The new Service Home of the Neel-Cadillac Company, comprising one hundred and twenty thousand square feet of floor space, is the result of twenty-three years of successful motor car merchandising by Percy L. Neel, the longest automobile distributor of Philadelphia; secondly, dependability and confidence in the Cadillac car, which is universally regarded as the world's greatest motor car value.

More about this mammoth service building: It is centrally located and accessible from Locust, Twenty-fourth and Twenty-fifth Streets. Two large freight elevators transport cars quickly to and from all floors, which are well-lighted and conducive to Cadillac service of the highest grade.

Neel-Cadillac Company after many years of experience expresses a pride in performing service work intelligently and satisfactorily. The facilities are complete and, in addition to the

excellent general shop equipment formerly housed in the Metropolitan Building, there has been installed in the new quarters a large number of special tools made expressly for repairing Cadillac cars.

The top, body and paint departments, likewise the used-car repair shop, formerly located at 112 North Broad Street, have been removed to Twenty-fifth and Locust Streets. The department of accounts later, (approximately Nov. 1) also will have quarters at the latter address. All sales departments of Neel-Cadillac Company will remain at 112 North Broad Street, where greater showroom space will be available for the display of new and used Cadillacs.

The vast new works of the Cadillac Motor Car Company have been termed the most wonderful in the world devoted to the manufacture of high-grade motor cars. In inaugurating a new Service Home it is the aim of Neel-Cadillac Company to keep pace with activities worthy of the Cadillac's greatness. We pledge again to do our part to serve Cadillac owners with the same degree of satisfaction they derive from the performance of the car.
