

CHANDLER CLIENTS MEET FIRM TODAY

Trustee for Accounts of Bankrupt Brokerage Company Will Be Chosen

REFEREE WILL PRESIDE

Creditors of Chandler Brothers & Co., the brokerage firm that failed July 25 last, will meet the Philadelphia members of the firm today at a hearing for the first time since the failure.

This meeting, to be held this afternoon in the Federal Building, will be presided over by John M. Hill, the referee. Frederick M. Chandler, Jr., and Earl Mendell, members of the firm, have said they will be present.

Mr. Hill said that he had no intention of extending to the firm any of the assets of the firm, but that he would refer to the sum alleged to be due the firm as explaining the cause of the failure.

Mr. Mendell said: "I shall make a statement in the time that will place the company in a different light. He also said he believed the trustee in charge of the assets of the firm should be at least 50 per cent of the amount due from customers, including in paying the assets approximately \$2,000,000. This would be the sum of the assets of the firm, and the amount of the assets of the firm would be approximately \$2,000,000. This would be the sum of the assets of the firm, and the amount of the assets of the firm would be approximately \$2,000,000.

Mr. Chandler said that management caused the company's downfall. Inefficient help during the year period preceding placed in the hands of the company.

It's Your Turn to Pick Name for Big Phila. Fair

As an evidence of the widespread interest in the 1922 Sesqui-Centennial Exposition and the EVANSTON PUBLIC LEAGUE'S attempt to find a more fitting name, letters suggesting the following names have come to this office:

"WORLD'S PEACE - TRADE EXPOSITION" by S. Jimmy Molloy, of South Philly.
"REUNITED WORLD'S FAIR," by Frank Carlos Griffith, South Philadelphia.
"EARTH'S GOLDEN JUBILEE," by R. Gutz, Reading, Pa.
"PHILADELPHIA'S PROGRESSIVE EXHIBITION," by J. G. Doggett, of Lancaster.

What name have you to suggest?
The committee will be held this afternoon in the Federal Building, will be presided over by John M. Hill, the referee.

EXPERTS DISCUSS INDUSTRIAL ILLS

Employers, Workers and Public Representatives Confer at Harrisburg

CO-OPERATION IS URGED

Harrisburg, Oct. 25.—Clifford B. Connelly, Commissioner of the State Department of Labor and Industry, Dr. Frederick Wilson, of Reading, Pa., and A. A. Hammes, president of the Carnegie Technical Institute, Pittsburgh, were the principal speakers at the session of the industrial relations conference which last night began a four days' session in the Capitol.

Employer, employee and the public are representatives in the laboring which comprises 200 delegates, including manufacturers, workmen, chambers of commerce, labor organizations, engineering societies, safety engineers, industrial physicians and workers' clubs.

Mr. Connelly, in his opening address, urged co-operation to crystallize the efforts of the conference into a unified program of action. Wilson spoke on the foreign labor outlook, and Mr. Hammes, representing Secretary of Labor Davis, spoke on the present industrial and commercial situation of the Nation.

Prior to the opening session of the conference there was a meeting of the advisory board of employers, which formed an organization which will coordinate the activities of working with the national body of inspectors.

John J. Kelly, president of the Glass Bottle Blowers' Association of the United States, speaking at today's session of the conference in behalf of the employees, said that the employees of the industry are willing and ready to co-operate with the employer when the co-operation is mutual and upon an equal basis.

Such mutual co-operation, he explained, means "when the employer recedes from the position that he will run his business to suit himself, when he recognizes that the employee's physical energy and skill is put up against his capital and that through this co-operation there is joint production of commodities, thus giving the workman to have something to say relative to conditions under which he works, and to recognize the moral and industrial rights of the employee, when he is deprived of the power to exercise any control whatsoever over the political and social life of his employees."

Mr. Kelly said, are "the suspension, as far as the protection of his interests as he himself exercises; when he recognizes that reforms of a substantial and lasting character are the only ones that will meet the situation today."

The principal reasons for lack of co-operation on the part of the employer, Mr. Kelly said, are "the suspension, as far as the protection of his interests as he himself exercises; when he recognizes that reforms of a substantial and lasting character are the only ones that will meet the situation today."

FURBUSH STANDS BY RADIUM FOR CANCER

Disagrees With Deaver, Who Scored Treatment at Surgeons' Congress Here

SAYS CITY ACTED WISELY

Notwithstanding the declaration of Dr. John B. Deaver to the American College of Surgeons that radium has proved almost valueless in the treatment of cancer, Director Furbush today reaffirmed his faith in its efficacy and asserted that the purchase of two grams of radium by the city at a cost of \$230,000 was "one of the most progressive steps" any city has ever taken.

Dr. Furbush said, claim that radium is a cure-all for cancer, is a "circumstantial," he said, "but I do say that the city of Philadelphia has not made a mistake in the purchase of its radium. My attitude is just the same today as it was when the original request for the purchase of radium was considered by the Council Committee on Public Health. You will recall that at that time I said radium was not a cure-all, but that it has a most positive place in progressive medicine and there are many opportunities for further investigation."

Dr. Furbush called attention to the fact that the city of New York has purchased to purchase six additional grams. This further expense, said Dr. Furbush, would certainly not be undertaken unless a great many New York physicians and surgeons had found radium of constant value to them in treating disease.

"At times when the use of radium could have been most valuable, it failed utterly in the treatment of cancer," Dr. Deaver declared at the meeting in the Bellevue-Stratford last night. "I almost hesitate to express the fear which I have that nothing could be looked for from radium in the future to be of advantage in the treatment of cancer."

His remarks were followed by an almost death-like hush that caught the audience of nearly 200 surgeons gathered from all parts of the country and Europe and who were seated in the room. Almost apologetically, Dr. Deaver noted the instances where radium had been used when it was most sorely needed. Its benefit, he then declared, had been practically negligible, and in many cases found to work greater harm than good.

Dr. Deaver defended the older method of diagnosis, where the senses of a physician were used to determine the extent and nature of an ailment. "We have largely departed from the use of sight, taste, touch and smell in clinical diagnosis," he said. "But their value remains as great today as at any time in the past. Mechanical diagnosis and rest-tube reactions have their value, but they can never replace the element of judgment that can accompany a more simple form of diagnosis."

Dr. Deaver bitterly attacked anti-radiationists in their efforts "to hamper the progress of medical surgery."

Lawyers Seek Line on Rum Warrants

Indict U. S. Senator

Cameron, of Arizona, Accused of Perjury

Phoenix, Ariz., Oct. 25.—(By A. P.)—An indictment on the charge of perjury was returned against Ralph H. Cameron, junior United States Senator from Arizona, by the last Federal Grand Jury here.

Both Judge William H. Sawtelle, presiding over the United States District Court here, and Thomas H. Flynn, United States District Attorney, declared they could not discuss the subject until Attorney General Daugherty at Washington had authorized them to do so.

The fact that the indictment was returned, was learned yesterday when an entry relating to it was found in the minute book of the court. The entry stated that the indictment, charged Senator Cameron "with violation of Section 125 of the penal code, §10—perjury."

Senator Cameron was elected last November 2, when he defeated Marcus A. Smith, his Democratic opponent and also his predecessor in the Senate.

BOOTLEGGERS GOT DRUGGISTS' LIQUOR

Rutter Says Honest Pharmacists Suffered While Crooks Were Favored With Permits

HAS MANY COMPLAINTS

"While big bootleggers got permits for whisky and alcohol by the 7500-gallon lots, legitimate drug stores, with doctors' prescriptions to fill for sick persons in need of stimulants, could not get permits for a few gallons," said Samuel F. Rutter, associate prohibition director, today.

"For six weeks before the investigation of the whisky ring in this city the small druggist with a decent and legal business suffered because the crooks were getting all the rum. We have hundreds of letters of complaint."

Mr. Rutter made this statement today in explaining why many permits have been issued in the last few days to druggists to procure alcohol and whisky in small lots.

Mr. Rutter said he would ask Washington for a ruling on the amount of whisky a doctor is to be permitted to prescribe for a patient in a given time. The present regulation fixes it at a pint in ten days. Some directors are more liberal, some less so, in their view of the meaning of the regulation.

Mr. Rutter said that all Pittsburgh records would be sent to this office for scrutiny, and it was possible some of the enforcement force might come along. Jacob G. Stoniger, who was head of the enforcement agents before the recent shake-up, departed today on a two weeks' vacation with pay. News of the office seems to know what the potend is. It is rumored, however, that if he remains in the enforcement division it will be as a field agent only.
