NEW ROAD SYSTEM FOR BURLINGTON CO.

Utility Routes Planned to Give Farmers and Autoists Needed Outlets

SHEET ASPHALT IS USED

Burlington, N. J., Oct. 26.—Plans for Burlington County's new road system, that will give farmers, industries and autoists utility routes at the least possible cost to taxpayers, were outlined by James Logan, county engineer, yesterday afternoon before the Burlington Kiwanis Club. The county, he said, is slowly working back to the reputation it enjoyed before the advent of rubber-tired vehicles, for the finest road system in New Jersey.

Mr. Logan said the improvements have been planned with the agricultural interests of the county first in mind, in order that growers might have good roads, tapping farm centers, over which to truck their products quickly into Camden and Philadelphia markets on the south and Trenton and New York on the north.

Burlington County has adopted the sheet asphalt system, he said, because it permits the use, for foundation, of the present macadam roadbeds, settled by years of travel. The county is specially fortunate, he also said, in possessing centrally located deposits of the type of sand needed for asphalt construction work.

Receives Diplomatic Appointment

Atlantic City, Oct. 26.—Gerald MacDonald, a clerk in the city tax office, is to be made secretary to Frank Morales, new Minister to Honduras, as soon as Senate confirmation is given. MacDonald served overseas in both the French and American ambulance corps and was decorated by the French Government for conspicuous bravery in action. Morales is a protege of Senator Walter E. Edge.

HUNT QUARANTINE FUGITIVE

Warrant Out for Colored Preacher Who Fled From Smallpox Home

Haddonfield, N. J., Oct. 26.—A warrant has been issued for the arrest of the Rev. William Boone, pastor of the Negro Baptist Church here, who broke the smallpox quarantine on his home, where four cases of the disease exist. The State health authorities, who have charge of the epidemic here, are exerting every effort to get him, giving wide notice of his escape and placed detectives on his trail.

Public schools are in session again barring only those pupils who do not produce a certificate of vaccination dating back no later than five years.

The dozen cases of smallpox are entirely under control and are improving, it was stated.

PALMYRA TO HAVE SEWERS

Township and Bank Arrange $125,000 Bond Issue

Palmyra, N. J., Oct. 26.—As a result of a tentative arrangement made between the Palmyra Township Committee and the Palmyra National Bank, $125,000 probably will be borrowed from that institution to finance the construction of Palmyra's new sewer system, a contract for which was recently accepted. It is proposed that the bank shall purchase the township's temporary bonds, yielding 6 per cent interest, at par. The money is to be deposited with the bank, subject to the checks which the township officials may draw in payment for the sewer construction.

Several legal questions involved will be investigated before the agreement is fully made.

TWO MEN INDICTED ON GAMING CHARGE

Gloucester County Grand Jury Takes Notice of Carnival Wheels of Fortune

MUST STOP, JUDGE SAYS

Woodbury, N. J., Oct. 26. — The Grand Jury finished its labors Monday evening and returned sixty-six indictments, two of which may have a big meaning, as they concern gaming, which has been running rampant at carnivals throughout the county all summer.

Justice Katzenbach called attention of the Grand Jury to the operation of wheels of fortune and other methods of obtaining money, and said that the members should give particular attention to this matter and to stop it, as it was anything but elevating for the coming generation.

The two indictments under this charge are against James P. Logue and John McQuaid, of East Greenwich Township. The latter is charged with "receiving money from Janvier Van Hook, Mrs. William Cook, Mrs. Wilmer Mills, Wesley R. Duffield and others on a date in September at a carnival, agreeing to give a blanket, robe or other valuable thing upon the event of drawing certain numbers in a certain lottery, contrary to the form of the statute." The indictment against Logue is similar.

For several years carnivals have been operated in South Jersey as a means of obtaining cash for different objects. But never did the fever for this sort of gaming run riot to the extent of the last summer, when fire companies, lodges and other organizations secured big profits. Wheels of fortune were the leading feature at these events and people almost fell over each other to spend their money on chances.

The most famous imprint in the world

YOU see it everywhere—on dusty country roads, in freshly sprinkled city streets. The mark of that little six-holed block of accurately blended O'Sullivan rubber has become the most famous imprint in the world.

The O'Sullivan story—spread from coast to coast—has aroused millions to the dangers of fatigue.

The famous O'Sullivan blend means a heel that is first and foremost a *shock-absorber*—a heel that *stays* live and springy till it's worn wafer-thin. Every step seems to fall on a cushion of air!

Insist on getting O'Sullivan's!
