

BAPTISTS DEMAND CLOSED SUNDAY

Charitable Donations of Newark Theatre Managers Bribe, in Intimation

ASK BOXING LAW REPEAL

Special Dispatch to Evening Public Ledger. Atlantic City, Oct. 26.—The religious element of Newark stands for law enforcement and for the support of the state who compel obedience to the statutes. It cannot remain silent longer over the sop which was thrown in by the proprietors of the theatres in the form of donations for charitable purposes. These donations, which are being distributed by W. J. Brennan, Director of Public Safety, have aggregated, up to September 1, more than \$200,000, and which have been made to subsidize a conspiracy which craves out against official disregard of the law which forbids their operation on Sunday.

Want Boxing Law Repealed

The Rev. Hugh B. McCauley made a successful appeal for the repeal of six delegates from the convention to join with the Church Federation in the campaign to have eliminated from the statutes the boxing law, which officially countenances "such brutal exhibitions as occurred in Jersey City when Dempsey knocked Carpenter into unconsciousness."

Mr. Wood said he had written to Safety Director Brennan on the subject of refusing further advances of money from the proprietors of moving picture theatres and other amusements which violate the Sunday observance law, and that he would make the matter public immediately upon his return to Newark.

The Rev. John W. Lyell, of Camden, chairman of the Resolutions Committee, said this morning that he expected the convention would go on record in opposition to the ruling of Secretary Mellon relating to the prescribing of beer and wine. A telegram may be sent to President Harding.

Favor Armament Limitations. The resolutions also will approve of the limitation of armaments conferences in favor of the retention of the Van Ness dry law, and another calling for a more vigorous enforcement of the dry laws nationally and in the State.

In the future under the decision reached this morning, no candidates will be received for the ministry after next January who have not had a three year theological course. The object is to raise the intellectual standard of the ministry to keep it abreast of the times.

Has Three Ribs Broken. In a collision between two automobiles at Walnut lane and Wayne avenue last night, Harry R. Stackhouse, 256 Monastery avenue, Roxborough, driver of one of the automobiles, suffered three fractured ribs. The other machine sped away. Stackhouse was removed to his home.

LOOT IN NEW YORK MAIL ROBBERY ABOVE \$1,000,000

Booty Taken Mostly Composed of Bonds and Other Securities. New York, Oct. 26.—(By A. P.)—Belief that the loot in Monday night's daring mail truck hold-up would exceed \$1,000,000, was indicated by post-office authorities today. From other sources it was learned that the total might exceed \$2,000,000.

Officials of one Wall Street firm said they had sent \$1,000,000 in securities by registered mail on Monday night, but that they had been unable to learn yet whether it was in one of the five packages taken by the three bandits who held up the truck in lower Broadway. Known losses made public so far included \$400,000 in bonds, issued to the Federal Reserve Bank; \$200,000 in securities sent out by Hill, Farwell & Pariss; \$240,000 in bonds issued by Remick, Hodges & Co., and \$100,000 in securities sent out by Fidelity, Fish & Co. All these losses were said to be covered by private insurance.

MAKES PLUNGE TO DEATH

Dr. W. F. Smiley, of Albany, Killed by Leap From Window. Atlantic City, Oct. 26.—Dr. William F. Smiley, fifty-nine years old, an ex-teacher of Albany, N. Y., early this morning leaped from a third story window of a sanitarium conducted by Dr. Leonard H. Engle, at 120 South Maryland avenue, and was killed. Dr. Smiley, who had been suffering from neurasthenia, came to the sanitarium some time ago. Although depressed at times, according to Dr. Engle, there was no indication that the man had suicidal tendencies, or was melancholy. This morning he made his way from his room on the third floor to another on the same floor facing the street, the window of which was screened. He raised the window and deliberately leaped out.

COLLEGIANS OPEN ARMS CONFERENCE

Princeton Is Host to Representatives of Forty Higher Institutions of Learning

BIG MASS-MEETING TONIGHT

By the Associated Press. Princeton, N. J., Oct. 26.—More than seventy delegates, representing forty universities and colleges, are here for the intercollegiate conference on the limitation of armaments, which opens at Princeton University this afternoon. Students of Great Britain are represented by Robert Willerforce, secretary of the British Information Bureau in New York. The Chinese in colleges and universities in the United States are represented by President H. H. Fisher, president of the Board of Education of Great Britain, expressing the sympathy of English colleges with the movement initiated here.

WOOD PARDOONS 15 FILIPINOS

Manila, P. I., Oct. 26.—Fifteen prisoners confined in prisons throughout the islands were pardoned yesterday by Governor General Wood. Two of the pardoned men were serving life terms following convictions on charges of murder.

HARRIMAN'S COUSIN WEDS WAR NURSE

Brother-in-Law of W. K. Vanderbilt Met Canadian Red Cross Worker in France HAS BEEN DIVORCED TWICE. New York, Oct. 26.—It was disclosed yesterday that Herbert Melville Harriman, cousin of the late E. H. Harriman, left this city for French Lick Springs, Ind., about two weeks ago to be married there to Miss Sally Hunter, a trained nurse, also of this city.

Miss Hunter left New York Monday afternoon for the Indiana health resort, where the ceremony was to be quietly performed immediately following her arrival.

Mrs. Oliver Harriman, a sister-in-law of the bridegroom, verified the engagement last night and said she had received Miss Hunter at her home, 142

East Fifty-fifth street, just before the young woman's departure. The bride, according to Mrs. Harriman, is a stately and cultured woman, still in her twenties. She is a graduate nurse. Miss Hunter came to New York from Canada about two years ago. She was a member of a Red Cross unit, which saw active service in France during the World War.

It was while in France, according to Mrs. Harriman, that the young nurse presented herself at the house of Mrs. Oliver Harriman, about the same time that Mrs. Harriman received a letter from her brother-in-law. This letter, the first intimation that any of the family had of the contemplated marriage, related the intended steps and informed Mrs. Harriman that the bride-to-be would call at the Harriman home.

Mrs. Oliver Harriman at her home yesterday told a reporter: "Yes, it is in the way of a little surprise, but true. I received a letter from my brother-in-law who has been in French Lick for several weeks. He told me of his intentions and stated he wanted me to meet the young woman, and had asked her to present herself at my home. The young woman called

Mrs. Oliver Harriman at her home yesterday told a reporter: "Yes, it is in the way of a little surprise, but true. I received a letter from my brother-in-law who has been in French Lick for several weeks. He told me of his intentions and stated he wanted me to meet the young woman, and had asked her to present herself at my home. The young woman called

me and we had about half an hour's visit. "I have received no telegram today from my brother-in-law, as I don't think the ceremony took place until late in the afternoon, as I understand the young woman would not arrive until around 3 P. M. I wished her and him a world of happiness."

Mr. Harriman is the son of the late Oliver Harriman. In 1906 he and his wife, Isabella Hunewell, said at the time of the divorce, were divorced. His second wife was Miss Mae Brady, daughter of the late Judge Brady, of Baltimore and Narragansett Pier. She obtained a divorce last March.

Mr. Harriman is a stockholder in the Newport Casino, a member of the Newport Reading Room, the Brook, Meadowbrook, Turf and Field, Piping Rock and Colony Clubs. He was well known twenty years ago as a golfer, winning the American amateur championship in 1890, and holding the Metropolitan and other titles that same year.

With the arrival today of National Commander Emery, it was announced consideration of a large number of recommendations to be submitted to the national convention here next week. The director's report recommends the passage of a law which would prohibit the sending through the mails of any printed, written, photographic or pictorial matter that has an un-American tendency and also a clause prohibiting the sale of such matter.

LEGION BOARD WOULD CURB RADICALS' MAILING RIGHTS

Major Emery Has Rivals for Position of National Commander. Kansas City, Mo., Oct. 26.—(By A. P.)—More drastic legislation governing the transmission of radical literature through the mails was recommended by the American commission of the American Legion here today in the report of the commission, announced by Director Alvin M. Owsley, former Attorney General of Texas.

The commission, which opened its annual meeting this morning, began consideration of a large number of recommendations to be submitted to the national convention here next week. The director's report recommends the passage of a law which would prohibit the sending through the mails of any printed, written, photographic or pictorial matter that has an un-American tendency and also a clause prohibiting the sale of such matter.

Seek Typewriters for Soldiers

Typewriters, new or old, are greatly needed by a number of blind and crippled soldiers who are studying in several of the business schools in this city. The inclinations are needed for practice work, and should be sent to the Emergency Aid headquarters, 221 South Eighteenth street.

Your money—get all you can for it

That's not selfish; it's sensible—get all the style in clothes that is coming to you; all the quality; all the long wear; all the value

Your money will do most in

Do you care as much for your babies as a florist cares for his flowers?

EVERY florist knows this: Flowers which will thrive in air warmed by hot-water radiators will wilt in the heat from a hot-air furnace or stove.

Warm, moist air builds health; hot, dry air undermines it.

Have you ever considered these facts in their relation to the winter health of your babies?

The American Radiator Company considered them when conducting the scientific experiments that produced ARCOLA.

You simply must see ARCOLA. It is new and different. Built by the Company whose larger heating plants warm mansions, cathedrals and even the White House itself, it is guaranteed to be the most perfect hot-water heating outfit for small homes and stores which science has produced.

Handsome as a fine piece of furniture and costing surprisingly little, it stands in the living-room, dining-room or kitchen, flooding the room with warmth.

American Radiators connected with it, carry its warmth to every other room; while the kitchen tank, also connected, provides an abundance of hot water for washing and bathing.

And we guarantee that if your home is now heated by stoves or a hot-air furnace, ARCOLA will pay for itself in the fuel it will save. It burns any kind of fuel.

For the sake of your babies' health—for the sake of your bank account—get your Heating Engineer and see ARCOLA today.

The red and yellow card at the right is the sign of a Heating or Sanitary Engineer (you used to call him Steamfitter or Plumber) who can show you ARCOLA. Look for it in his window. It will pay you to consult him twice a year as your Doctor or Dentist. To have him examine and report on your heating and plumbing costs little. It may save you a very great deal.
