

HARA'S SUCCESSOR NOT YET SELECTED

Marquis Saionji Most Prominently Mentioned—Hara Funeral Rites Held

CRIME LONG CONTEMPLATED

By the Associated Press
Tokio, Nov. 8.—Conferees of the Elder Statesmen continue in an effort to arrive at an agreement upon a successor to Premier Hara, who was assassinated Friday night.

Marquis Saionji, Marquis Matsuda, Baron Makino and Admiral Saito, Governor General of Korea, discussed the situation at some length at the palace yesterday, but so far as is known no decision was reached.

Long Trained Victim
The assassin, Ryuzi Nakano, has confessed that he planned the crime several months ago, and that he trailed the Premier since that time, seeking a favorable opportunity to stab him.

There is much speculation concerning the possible successor to Mr. Hara. Marquis Saionji is most prominently mentioned, but in some quarters it is stated that he is unwilling to take over the duties himself, preferring merely to have a hand in the appointment.

Those of the former opinion declare that Marquis Saionji is against further monopolization of power by the Seiyukai, and that he has more than once indicated his displeasure concerning the

appointment of some of the present Cabinet members.
Expect Saionji to Accept
They argue that he is too far-sighted to assume office under the present circumstances and thus risk his political future.

Those holding the opposite view declare he will rise to the occasion if urged by Field Marshal Prince Yamagata and given the privilege of using his discretion as to changes in the Cabinet.
MURRAY ESCAPES CHAIR
Once Convicted of First Degree Murder, Now of Second

John E. Murray, once convicted of murder in the first degree and tried for the second time because of a reversal of that conviction, was convicted of murder in the second degree last night in the Court of Oyer and Terminer. His counsel, William A. Gray, on hearing the verdict, at once appealed Judge Monaghan that the prisoner would offer no further resistance and would accept sentence.

Our own new practical "Makino" Coat, 9 to 18 years—\$13.75.

Some of the Reasons Why We Say, Buy in November and Pay January First

Eleven years ago when we inaugurated this system as an innovation in Philadelphia, we saw many distinct advantages to the public and to the Store.

The congestion of Holiday buying between December 1st and 24th placed an almost superhuman task on our organization—a test of endurance for even the best trained and most loyal employees.

Up to that time the practice of keeping open in the evening before Christmas had long been in operation in this city. We were always opposed to this and stood resolutely against it, until it was abolished by all large stores.

Even though our employees did not have the added burden of these excessively long hours, there was still far too much overtime required because of the immense amount of work to be done in so short a time.

With the BUY IN NOVEMBER, PAY IN JANUARY Campaign, this immediately began to change. The volume of November business increased; the load was more evenly distributed; the work was better done; fewer mistakes were made, and where an error did occur there was more opportunity to correct it. We were distinctly benefited from an operating standpoint.

Here Is Where Our Customers Benefit—Our Holiday stocks are at their fullest in November. Our plan gives time for careful and unhurried selection. It relieves customers of anxiety and doubt as to whether gifts will be received before Christmas. It helps the great transportation agencies to solve their problems.

It removes all reasons for waiting until December to buy gifts. Buy in November, and, unless you prefer to pay your November bill on December 1st, everything bought from now until December 31st may be paid for when you receive your bill January 1st. (If you have no charge account, now is a good time to open one.)
