"Tell Me His Name."

WELL, now that you have done this thing you will admit that I ought to know all about him." I be gan. Again I had a sudden feeling of coming disaster that was out of all proportion to the incident itself. Perhaps it was Julie's feerish ejaculation that she loved him that made me so uneasy. I realized too, that having once admitted the fact that I had introduced Julie and this stranger. I was saidled with a great responsibility. If anything happened, if Julie took it into her head to do anything wild, I should be blamed for it. It might be the means of allenating Dane from me. At the very thought I was plunged into the depths of misery.

"You don't seem to realize." I hurst.

She looked at me in wide-eyed amaze mound in ment. "Haven't I, really. Whr, it must have been an oversight then. I don't happened. His name is blackton. Isn't it a wonderful name, and it suits him, too Names seldom do that."

I don't know why I breathed a sigh of relief when I heard his name, but subconsciously it seemed as though a tragely of some kind had been averted. It wasn't until long afterward that I may be a minute at the time.

Julie's explanation of what he did sounded rather vague to me. Evidently what it was, but he wrote in his spare time, of which he seemed to have plenty.

Traits of character really may be divided into three classes; those which are mere expressions of it, those that are inherited with the character and therefore betray it, and those which are truly physiologically connected with it. Head shapes are typical of the latter class.

In general the forehead which slants backward denotes quickness of thought and perception, as opposed to slowness, depth and concentration of thought. This has been pointed out before.

It cleansed your scalp of every trace of clogging dirt and dandruff, leaving the deli-cate organism of each hair to do its natural

These results are due to the action of palm and olive oils in combination. These costly Oriental oils, famous for centuries as soften ing, relaxing, beautifying cleansers, are the basis of Palmolive Shampoo

How they act

The softening effects of olive oil are re-sponsible for the lovely gloss and softness. It produces the mildest, most penetrating of lathers, which is given body and richness by the blending with palm oil.

This lather is far more than a surface cleanser. It enters every root and hair cell and purges them from dirt, oil and dandruff,

Yet this hair, which is so thoroughly cleansed, isn't dry, harsh or brittle. The soothing action of palm and olive oil keeps it soft and glossy.

You must fight dandruff

Even the healthiest scalps secrete a mod-erate amount of dandruff, which doctors call seborrhea and charge with most hair

It is harmless enough it, when you sham-poo, it is thoroughly washed away. But ordinary shampooing doesn't affect the dry, oily scales which withstand most cleansing. They accumulate until the hair

cells are clogged. This clogging prevents proper natrition and your hair begins to come out. This is

the danger signal. The softening, penetrating lathersproduced by the blending of palm and office oils penetrates the formation of scales, loosening and dislodging them from hair roots and scalp-
