

MISCHA VIOLIN RECITAL

Performer With Same Name as Instrument Appears at Witherspoon... Mischa Violin, a young Russian violinist who has been on the concert platform in this country for about two years, made his Philadelphia debut before a

After-Dinner Tricks

No. 5—Metal Floats on Water

A metal disc that floats when carefully placed in a glass of water is quite a curiosity, but when the same disc sinks when placed in the glass by some one other than the performer, the experiment becomes a mystery as well. But in reality it is not the same disc. Two are used, one made of aluminum, the other of tin or steel, cut from sheets of metal. The steel disc is concealed in the folds of a handkerchief. After the aluminum disc has floated and some one wishes to try the experiment, the performer obligingly wipes off the disc for him and during that action retains the aluminum and pushes forward the steel. The exchange is repeated whenever necessary.

fair-sized audience at Witherspoon Hall last evening. Both in personal appearance and in general style of playing he strongly resembles Toscha Seidel. The young violinist presented a program which included all the standard requirements of modern violin playing. His first and principal number was the B minor concerto of Saint-Saens, followed by both the romances for the violin of Beethoven, the Ballade and Polonaise of Wieniawski and the brilliant "Faust" fantasia of Wieniawski. He is a typical product of the school of young Russian violinists which the teaching of Leopold Auer has made familiar to the concert-goers of the whole world. He had a good technique.

A Diamond Engagement Ring

Made of platinum in pierced design. The diamond is shown to good advantage in the octagonal setting—\$210.

Our diamonds are of a uniformly excellent quality, and are artistically set in platinum mountings, designed to enhance the beauty of the gems.

COLONIAL ICE-CREAM "PHILADELPHIA'S BEST"

Beware of Tender Gums

Unhealthy soil kills the best of wheat. Unhealthy gums kill the best of teeth. To keep the teeth sound, keep the gums well. Watch for tender and bleeding gums. This is a symptom of Pyorrhea, which afflicts four out of five people over forty.

Pyorrhea menaces the body as well as the teeth. Not only do the gums recede and cause the teeth to decay, loosen and fall out, but the infecting Pyorrhea germs lower the body's vitality and cause many serious ills.

To avoid Pyorrhea, visit your dentist frequently for teeth and gum inspection. And use Forhan's For the Gums.

Forhan's For the Gums will prevent Pyorrhea—or check its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's will keep the gums firm and healthy, the teeth white and clean. Start using it today.

Brush Your Teeth With Forhan's—How to Use It

Use it twice daily, year in and year out. Wet your brush in cold water, place a half-inch of the refreshing, healing paste on it, then brush your teeth up and down. Use a rolling motion to clean the crevices. Brush the grinding and back surfaces of the teeth. Massage your gums with your Forhan-coated brush—gently at first until the gums harden, then more vigorously. If the gums are very tender, massage with the finger, instead of the brush. If gum shrinkage has already set in, use Forhan's according to directions, and consult a dentist immediately for special treatment.

35c and 60c. All druggists.
