

TOBACCO CROP NOT MOVING

Part of Output for 1920 and 1919 Still in Storage

Lancaster, Pa., Nov. 14.—To the fact that so much Lancaster County tobacco of 1919 and 1920 crops is held by the big cigar firms having numerous warehouses in this county, is largely attributed the failure of the new crop to move.

While the cigar industry has been improving, it has not yet reached the point where the factories are drawing heavily on reserve stocks of leaf. Under such circumstances the large holders of old goods do not feel inclined to load up with new, and especially with a crop that has not yet proved itself.

Packers are not considering the price question, though the growers expect to get last year's prices, ranging from six-tenths to twenty cents. The local growers are not likely to start the buying this usually being done by big outside concerns, which also set the prices.

GIRL SUES SCHOOL BOARD

Dismissed for Using Face Powder. She Seeks Reinstatement

Knoble, Ark., Nov. 14.—A writ of mandamus asking that she be restored to her rights in the public schools has been filed here by Miss Pearl Pugsley, eighteen years old, who says she was dismissed for using face powder. For this year the School Board issued a statement that no face powders, cosmetics, rouges, peek-a-boo waisets, thin stockings or abbreviated skirts would be tolerated in the schools.

As Speaker of the House

I am requested to call your attention to the fact that you are overlooking a good thing if you fail to form the habit of glancing through the Classified Advertising columns of this newspaper every day. Should you not do this you will miss many splendid offerings of merchandise, equipment, household supplies, personal needs, service, etc., which you probably cannot find elsewhere at such advantage. Get the habit. It will be good for you.
