# One Week to Thanksgiving—High Time to Look About for Gifts

## Cowper, the Poet, Wrote These Fine Lines

"An idler is a watch that wants both hands  
As useless if it goes as if it stands."  
The difference between watches and men is  
to be measured by what they do.  
This we know full well, that there are men  
we meet from whom we learn nothing, and  
there are also men who come without any  
intention of bringing anything to you, but  
without knowing why, their presence makes  
you feel that you want to be a better man.  
It is not that they come to you with a  
lesson, but you know that their manliness and  
nobility has struck a salient note within you to  
be a better man. You know it.

## Georgette Crepe Is Certainly One of the Essential Silks

In fact, it is hard to see how the present fashions could be successfully carried out without this most adaptable silk.  
Wherever two silks are to be used together in dresses or blouses, it is quite safe to say that one of them is Georgette crepe. In consequence, many gradations of color are needed, and so the Silk Store has one of the finest assortments of this silk in all its history.  
A good quality Georgette crepe, 40 inches wide, is \$2 a yard, and for those thinking of Christmas silks, we wouldn't know of a better one to suggest.

## New Silk Scarfs Affect Bright Plaids

Incidentally, they are some of the prettiest silk scarfs we have seen for a long time.  
Some are in plain dark shades with the borders in plaids of Roman or Scotch effects. Others are entirely of plaid. They are the pure silk, and so soft and fine you scarcely realize how very wide they are. \$15 and \$18.50 are the prices.

## The Daintiest Colored Handkerchiefs Come From Paris

Women quite rightly look to Paris for the sheerest linen, the most exquisite colors and such tiny hand-rolled hems as only French fingers seem capable of making.  
We are very glad to be able to say that we have the best assortment of these lovely handkerchiefs that has ever been here, and they are moderately priced, considering the beautiful quality. \$1, \$1.25 and \$1.50 each.

## To Every Man Who Needs a New Overcoat

Any man who knows the value of money wants an overcoat that measures up to the price he pays for it—and as much beyond that as possible.

There is no change this year in the things that have to be put into an overcoat to make quality or in the things that have to be left out so as to make "cheapness."

So far as Wanamaker overcoats are concerned, more of everything that makes for quality and style and service and solid worth for the money has been put into them than ever before.

We saw how, with wartime difficulties and other difficulties, real or imaginary, removed, men's overcoats could be made better and sold for less, so we went ahead and "did it."

Every style, every color, every pattern that any man or young fellow can wish for.

Prices \$28 to \$100.
