as we are now, with us as we were then. Our moral standards, I mean. If you'll remember back, you'll gradually realize the storm that the aroused when it was first presented. It dealt so brazenly and openly with things that you and I didn't talk about -at least we weren't supposed to talk about. When we discussed it, we did it in guilty whispers. And we laughed at the clever lines quite carefully and oung girls tried not to laugh at some of them bacause they weren't supposed to understand just what they meant. But all this week the audiences have been made up very largely of eminently respectable men and women and boys and there aren't many who can get as much out of a Jewish characterization as he can. If and girls and they laugh right out in meeting at the keenest of Elfie St. Clair's demimonde philosophy and ap-plaud her as an altogether sensible woman. And you get the impression that they rather look on Laura Murdock as a good deal of a boob for living in that unattractive boardinghouse room and dining meagerly on half a bottle of milk and a few bis-cuits. There's a distinct atmosphere
