Director Sproule Starts Campaign to Get Auto Maker's Vessels Here

Director Sproule, of the Department Wharves, Docks and Ferries, hopes a divert Henry Ford's proposed South American line to the port of Philadel-

The Director is today sending Mr. ments to South America. Ford statistics showing the advantages of this port as a shipping center for announcement that the noted manufacturer of automobiles is planning to invest in a steamship line.

According to the reports, Mr. Ford proposes to buy a fleet of U. S. Ship-ping Board vessels, which are to be sold the near future, and operate them out of one of the Southern ports, Hamp-ton Roads being mentioned as its northern terminus. The manufacturer, secording to the report, has been making inquiries as to conditions at Norfolk, lewport News and Portsmouth.

Stresses Philadelphia's Advantages

"I am at a loss to know why Mr. Ford should be considering any of those ports. So far as I know there are no ports. So far as I know there are no shipments from any of those Southern ports to South America except coal. New Orleans is the only Southern city I am aware of which has regular ship-

Some who have been active in the past in boosting the port have done their shipring clsewhere.
"It must be remembered, of course,

that it is natural for shippers to send back is turned. As it comes to rest, he their goods to ports whence they can get regular shipments, instead of tak-ing a chance on delay by shipping them to Philadelphia. I remember an in-stance which illustrates this. A manufacturer up the State sent two carloads of steel rails to Philadelphia to be shipped on a vessel which touched here with a cargo from Constantinople. It developed that this was the only ship-ment for Constantinople from Philadelphia, and, naturally, the ship did not sail. After paying his transportation costs to Philadelphia and losing time while waiting for the ship, the manufacturer was compelled the go to the added expense of sending his rails to New York to be shipped. New York to be shipped.

Wants Regular Sailings "Sailings are maintained regularly from New York, whether there are cargoes or not. This is the only basis on which trade can be attracted. It would be entirely possible, however, for Philadelphia and Pennsylvania manufacturers for the cart teachers. ers to get together and by resolving to ship all their goods through this port create a sufficient volume of business to
