If Heinrich were not an incurably matter-of-fact person, one might ac-cuse him of seeking a terrific dramatic effect with the panel of the hotel room door. For the hand that Fatty must look upon whenever he looks toward door. For whenever he looks to look upon whenever he looks to the Judge is like a hand made out of the Judge is like a hand made out of the Judge is like a hand made out of the Judge is like a hand made out of the Judge is looked to be supported in the looks to look upon the look upon dd at his testimony, sneer and shrug the other lawyers did, it was clear that Heinrich worried them endlessly. So, though they said that Kate Bren so, though they said that Kate Bren-san's testimony with her demonstration with her dust cloths quite disposed of the fingerprints, they will put their own fingerprint experts on the stand refute all that Heinrich lusists

mon.

Meanwhile, Heinrich has contributed the one note of clear drama to the situation. His exhibit is as suggestive and exciting as anything in the literature of Sherlock Holmes. And like Sherlock Holmes. And like Sherlock this Heinrich looks, with his support disordered hair, his sharp features and his complete assurances and his dependence on cold, uncaring logic. It was to harass Heinrich that the defense on Saturday called Ignatius McCarthy, who has made thousands of fingerprints for the Federal Secret Service and the army. Brady and his assistants were doing their best to keep McCarthy off the stand when court adverse metals and associates of the stand when court adverse model and associates of the stand of the stand when court adverse model and those contribution. seems ready to snow up and which the more conservative Hollywooders desire to expel is disposed to think of the Party Fatty case, when it thinks of it at all, as amusing.

Of course, old Fatty will come back. Why shouldn't the old egg be let above? He was drunk, wasn't be, and he didn't know what he was doing? Very well, one doesn't blame a man for what he does when he's in brine. And the reort that some one or other is going to put through a law to cut off the drinks, that's all through your eye, you know. Cannot be anything to it. Old Fatty was a good pill while he was alive, and he's too good a fellah to keep dead."
