How to Run an Ostrich Farm

By J. P. McEVROY. Vocational Guidance Series. TO RUN an ostrich farm it is obvious you must have at least two things: an ostrich and a farm. You can get a farm almost anywhere. Any farmer will let you have one. He may try to sell it to you at first, but if you look him coldly in the eye and say, "Waldie mean, buy your farm?" he'll weaken and give it to you. He realizes as well as you that the only way he can make money these days is to give his land away.

A Danger Warning—Bleeding Gums

Are your gums tender? Do they bleed when brushed? If so—watch out for Pyorrhea. This disease of the gums, which afflicts four out of five people over forty, not only destroys the teeth, but often wrecks the health. In Pyorrhea, the gums become spongy, then recede; the teeth decay, loosen and fall out—or must be extracted to rid the system of the infecting Pyorrhea germs which breed in pockets about them. These germs lower the body's vitality and cause many diseases. You can keep Pyorrhea away: Visit your dentist often for tooth and gum inspection, and use Forhan's For the Gums. Forhan's For the Gums prevents Pyorrhea—or checks its progress, if used in time and used consistently. Ordinary dentifrices cannot do this. Forhan's keeps the gums firm and healthy—the teeth white and clean. Brush Your Teeth With Forhan's—How to Use It Use it twice daily, year in and year out. Wet your brush in cold water, place a half-inch of the refreshing, healing paste on it, then brush your teeth up and down. Use a rolling motion to clean the crevices. Brush the grinding and back surfaces of the teeth. Massage your gums with your Forhan-coated brush—gently at first until the gums harden, then more vigorously. If the gums are very tender, massage with the finger, instead of the brush. If gum shrinkage has already set in, use Forhan's according to directions and consult a dentist immediately for special treatment. 35c and 60c. All druggists. Formula of R. J. Forhan, D. D. S.
