FASCINATION

Have you ever experienced the delight of effortless sewing, and while you pressed your foot slightly on the controller, watched the fabric glide magically beneath the needle?
Have you known the joy of silent sewing, so noiseless that one could read aloud to you while you sew?
That is what the Electric Automatic does for you, and there is no hobbin' to run out in the midst of a seam. There is no tension to adjust, for it automatically adjusts itself, while the seam it makes is unexcelled in beauty and strength.

STEINWAY PIANOS

Value or Price?

Everybody who knows anything of music, or the music trade, knows that Steinway pianos are the world's standard for musical quality and mechanical perfection, as well as full money value. With no hope of competition in these essentials of the best piano, and with intense competition in their own class, some piano-makers have adopted the subterfuge of attaching to their product prices as high or higher than Steinway prices.
