

DEADLOCK IN ARMS PARLEY

Naval Ratio Conflict Won't Break Down Conference, Says British Spokesman

NEGOTIATE ON SHANTUNG

By the Associated Press Washington, Dec. 1.—No conference is deadlocked until all of the delegates have packed up their things and gone home, said the spokesman of the British delegation today.

The spokesman explained that there appeared to be a misunderstanding as to the procedure in such cases. As a matter of fact, he said, only the Board of Naval Experts so far has acted upon the question of ratio.

Hold Japan is Fully Protected Regarding the argument of national security, the American delegates and experts, backed by the opinion of the British delegates, held that its logical application would mean a reduction rather than an increase in the naval ratio proposed for Japan.

Strong Stand by Chinese The Chinese delegates announced, after accepting the American and British offer of "good offices" in the controversy, that they were entering the discussions prepared to accept nothing less than immediate satisfaction of their Japanese claims in Shantung.

50 MORE VOLUNTEER TO AID IN DRIVE

Half of \$4,000,000 Total Already Subscribed—Teams Hard at It

HOLD MEETING IN BELLEVUE

Half the amount desired in the \$4,000,000 drive is already in hand, the 700 or more big industrial establishments of the city, employing fifty or more persons, are now being gone after strongly. Up to date the workers have been busy with other sources of funds.

A meeting was held today in the Chamber Room of the Bellevue-Stratford Hotel, at which the members of the drive, headed by Benjamin H. Ludlow, campaign director, addressed the fifty team members.

A call had been sent out to the other teams for volunteers to come forward to help in the big drive on the industrial plants, and the fifty extra men and women responded to the call.

"We are on the eve of putting this thing over, if we have the mail campaign," said Ludlow, "and we are going to get it through by canvassing the larger Philadelphia industrial establishments we are convinced that those who have not previously been inclined to help will be roused to the welfare cause, and will help by at least \$75,000 or \$100,000. Contributions, of course, are to be solicited from the members of the firms as well as the employees of each firm."

Sherman C. Kingsley, executive secretary of the Welfare League, also spoke, telling the workers the need for the drive for \$4,000,000.

Hundreds of checks, each for \$10, are coming into the Federation headquarters in answer to the mail campaign, which opened several days ago when 150,000 letters appealing for \$10 individual subscriptions were sent out.

Federation leaders are inclined to attach a significant meaning to the \$10 responses, which is that \$10 represents an average, democratic, charitable contribution. In line with this theory an appeal for "Ten Dollars Apiece" will be pushed for all it is worth. It will reach not less than 150,000 residents of the metropolitan city.

Increased and new contributions from business places have been received by the Federation within the last twenty-four hours. The "Ten Dollars" drive, credited Tuesday with \$2600, has raised this total to \$4000; employees of the Pennsylvania Railroad have contributed \$1143, and \$1000 has been received from the Globe Automatic Sprinkler Company.

SACCO AND VANZETTI'S SENTENCE IS DELAYED

Convicted Slayers' Counsel to File Petition Based on Exceptions Duxham, Mass., Dec. 1.—(By A. P.)—Judge Webster Thayer, of the Superior Court, today extended until December 20 the time allowed counsel for Nicola Sacco and Bartolomeo Vanzetti to file a petition based on exceptions to their conviction for the killing of a paymaster and his guard at South Braintree, Mass., in 1920.

District Attorney Frederick G. Katzman agreed to the motion for an extension, which defense counsel explained was made in order to allow them further time to prepare and file the necessary papers. Decision of Judge Thayer in a motion for a new trial is still pending. Meaningful action of the convicted men has been deferred.

DESIRE U. S. LOAN FOR RUSSIAN FOOD

American Relief, Lacking Funds, Considers Requesting Government to Aid

WOULD ASK FOR \$50,000

By the Associated Press Riga, Dec. 1.—The United States Government soon may be asked for funds, probably as a Government loan to be controlled by the American Relief Administration, with which to supply sufficient food and seed-grain to provide for the entire 15,000,000 of starving persons in the Russian famine district.

A loan, under the plans informally discussed by the Relief Administration in Russia, would not be made to the Moscow Government, but to the Provincial Government in the famine region, guaranteed by the Central Government and to be repaid at the time of the next harvest.

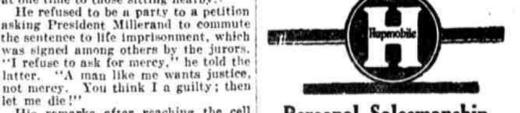

The amount of the loan would be somewhere in the neighborhood of \$50,000, which the Relief Administration on investigators believe would be sufficient to save virtually the entire famine situation. Information concerning the prospective loan is as yet indefinite. The plan was brought to Riga by Walter L. Brown, European director of the Relief Administration, from Moscow.

According to Mr. Brown, he has had sufficient satisfactory experience in Russia to warrant the statement that he would have no hesitation in extending further aid if the Relief Administration itself were financially able to do so.

Famine horrors in Russia are growing in the approach of winter, officials of the Bolshevist Government advise show.

WHY CRANE'S?

THE responsible head of a business says: "All right, I am convinced that I ought to use the best paper I can get for my business stationery. But why CRANE'S?"

Why? Because every important bond and stock certificate is engraved on CRANE'S paper. Because many nations issue their currency on CRANE'S paper.

Because wherever the use of paper protects something of great value, where the paper must endure and reflect the greatest possible credit upon the instrument it bears, the paper is CRANE'S.

And the qualities in CRANE'S paper that cause it to be chosen for such high uses are the very ones that the man quoted above needs in his business stationery.
