Writer in Pennsylavnian Asks Greater Recognition for Women Students

WAMBY-PAMBY" GIRLS HIT

The University of Pennsylvania needs women of university ideals and not "mamby-namby girls," the Pennsylman declared editorially today, thus preparing the way for a flery counterattack from the young women now at

The editorial was written by Howard The editorial was written by Howard T. Hovde and outlined the student lally's attitude toward the feminine undergraduates who are lighting their lamps of learning in Penn's classic

Yes, a giftfrom your Heating Engineer

IF you act now, then on Christmas Eve-

When you tip-toe in where the babies are asleep, you will find each room perfectly warmed by its own American Radiator.

You will touch the hot-water faucet: it will flow with water that really is hot.

You will slip into the living-room where ARCOLA stands, sending out its warmth to those radiators and to the kitchen tank besides.

Could there be any more perfect Christmas gift?

ARCOLA is a gift. It costs little at the outset (surprisingly little) and by the end of the third winter it has paid for itself in the fuel saved.

Who offers this gift? Your Heating Engineer whose store is near your home. By his skill and science he has made America the best warmed, most comfortable nation in the world.

See him this week and let him explain his gift-how quickly ARCOLA can be installed and how it will bring to your home the same perfect hot-water warmth which the larger heating plants of this Company give to mansions, cathedrals and even the White House itself.

The red and yellow card at the right is the sign of a Heating or Sanitary Engineer (you used to call him Steamfitter or Plumber who can show you ARCOLA. Look for it in his window.

It will pay you to consult him twice a year as you do your Doctor or Dentist. His report on your heating and plumbing costs little. It may save much.
