# Great glass company cuts costs with L.B.'s help

FITHE Macbeth-Evans Glass Co., Pittsburgh, Pa., was suffering costly delays and unnecessary expenses because its filing system had not expanded with the business.

The filing department was working day and night, trying to keep up with increased business. The periodic task of transferring occupied two to three long, weary months; and it was always necessary to call in extra assistants.

#### L.B. called in to help

In January, 1914, the climax was reached. This manufacturer called in Library Bureau. The L.B. Analysis Department, which is maintained to meet just such problems, analyzed the needs of the business, making due allowance for future expansion.

Then it recommended the L.B. Automatic Index, recognized as the one notable development made in filing in recent years. This system, an exclusive L.B. idea, makes it easier for the file clerk to file correctly than incorrectly. It makes quick work of filing. It makes finding, too, a swift, sure operation.

#### What L.B. service accomplished

The L.B. Automatic Index showed actual time and money savings as follows:

- 1-Night work was at once abolished.
- 2-The much-dreaded 3 months' task of transferring was reduced to a 3 days' job.
- 3-The expense of extra assistants for this transfer work was eliminated.

4-Although the Macbeth-Evans Glass Co.'s business has increased, the L.B. Automatic Index met the increased filing needs without increasing the number of operators.

#### L.B. can help you

L.B. can show you how to save time, labor and money in your filing department. It can show you how to turn your filed facts into active business producers. It can show you how to take full advantage of your present equipment; how to use costly office space to maximum advantage.

That done, Library Bureau can supply you with every filing and record need-filing and record keeping systems; steel and wood cabinets; and guides, folders and cards for every purpose.

#### A new idea in filing

Business today is taking a brand new thought from the completeness of L.B. service. Business men everywhere are discovering that L.B. is turning files and records into business builders. This means that sales and other departments work more efficiently and that costly space, time and labor are conserved.

#### Let an L.B. salesman show you

Library Bureau's service department will gladly furnish free analysis service on any problem, large or small, connected with filing or record keeping.

Call in a representative today—no obligation.
