

BASEBALL LEADS SPORTS AT PENN

Dr. McKenzie Says Tennis is Second Choice of Popular Sports at University

Dr. R. Tait McKenzie, head of the department of physical education at the University of Pennsylvania, said today that baseball is the most popular sport with the University's freshmen.

"Among the questions on the blank familiar to every freshman when he takes his physical examination on entering Pennsylvania is one which reads: 'What sports or games have you practiced?'"

"Tennis comes next with 312, and football a close third with 293. It is surprising that such a large number of schoolboys have become acquainted with the great game before coming to college."

"Basketball can claim only 212, with track numbering 203. Slightly more than 10 per cent of the freshmen have never heard of tennis, and it is doubtful if many of them have engaged in racing."

"If these figures are totaled up it will be found that most boys have played a couple of games at least during the year, and doubtless a few have practiced many more."

SAN CARLO PRESENTS A 'SPIRITED 'LA BOHEME' Best Performance of Season Thus Far Given at the Metropolitan

The best balanced and most spirited performance yet given by the San Carlo Opera Company in this city during its present season was that of 'La Boheme' last evening.

The Bohemians were a capable and well-balanced crowd last evening, the three regular members of the company being re-enforced by Henri Scott, of Philadelphia, as Colline.

But while the members of the cast were individually excellent, it was in the balance and the spirit of the performance that the greatest merit was found. It is not an easy opera to present, as it is full of trill-like stage situations, but last evening everything went off with the utmost smoothness.
