COALDALE CAPTURES ANTHRACITE REGION GRID CHAMPIONSHIP

Green Team Defeats Gilberton on Field Marked Off by Coal Dust, While Crowd Gets Close View of the Proceedings

By ROBERT W. MAXWELL

Sports Editor Evening Public Ledger

Mahanoy City, Dec. 9. No MATTER what happens in the coal regions from now on, Coaldale has the championship football team. The husky lads who sport the Green on the field of buttle silenced the last and most persistent challenger here yesterday when they defeated Gilberton on a slippery, ley field, partly covered with snow. The final figures were 13 to 7, with the champs on the long end of the count.

This game virtually ended the football season up the State. The boys cho are accustomed to playing on hard gridirons with protruding rocks and overed with clinging einders, have registered a kick against the ice and snow. Say nothing of the cold weather. Therefore, the valises have been packed. te football suits put on the top shelf and nothing is left to be done but atend banquets to the winning and losing teams. This is a great system. Win r lose, they have a Lanquet.

Coaldale finished the season with only one reverse chalked against it. co Conway's Quakers socked them 2 to 0 early it the season. After that a to tple of the games were played, but all of the others resulted in clean-cut rictories. Shenandonh, the principal rival, was defeated three weeks age. and that game more than anything else gave Jimmy Gilden's eleven the anthra-

Yesterday's game was hard fought and played under the worst possible conditions. The key field made it impossible to gain consistently, and the snow made the ball too slippery for many forward passes, but during the entire sixty minutes of play both sides fought hard. The best team won, but many of the spectators believe Gilberton would have had a better chance on a day seld, where their speed would have been more of an asset.

The game was arranged because it was a sort of a holiday up here and the mines shut down at moon. The Gilberton players worked under the ground all morning—and that work is not easy—and stepped out on the gridien in the afternoon just as fresh and active as if they had been loating for a week.

WAS a remarkable game of tootball when one realizes the con-IT WAS a remarkable game of longon.

Lithgow Outguesses Gilberton and Scores

THE first touchdown, which was due to the quick thinking of Lathgow, Coalda'e's great quarterback, took all of the spectators and Gilberton players by surprise. The ball had see-sawed up and down the field, and Gilberton, getting the ball in its own territory, punted.

The ball sailed 30 yards and hit the ground. A Gilberton player touched at and then walked away. Quick as a flash Lithgow gathered the oval in his arms and ran for a touchdown.

This play has not happened to my knowledge in mny college game this year, because the players were taught how to play it. If a member of the kicker's side touches the ball it does not mean that the ball is dead. It is an offside play, but the other side has a chance to run with it and then decline the penalty. Couldn'te did this and scored the first touchdown.

After that the big Green team, using the famous Blue Bonner to crack through the line and Lithgow. Herrin and Gitner to circle the ends and plunge off tackle, carried the ball steadily toward the Gilberton goal line, At the end of the first period the pigskin was on the 6-yard line, and on the first play of the second quarter Gitner plunged through for a touchdown. Garland missed the goal and the score was 13 to 0.

Gilberton seemed to be outplayed. The light backs could not hold their feet and many times were thrown for a loss behind the line. It was only superb punting of Captain Gottschall that kept the ball in Coablale's itory and prevented more scoring.

The crowd was very much excited and quite inquisitive. They insisted setting a close-up on the play, and no one can blame them for that. Someas the spectators formed a ring around the noble athletes and cheered them There was no trouble, only once, when two of the players-Honey Boy tos and G. Zuby-playfully threw each other around. This caused parns of both sides to step on the field and give a free exhibition of how to ay a football game without wearing soft bandages on the hands.

The exhibition lasted until the performers were tired and they retired to the sidelines to rest up and think of mean things to say at their rivals.

HOWEVER, it was all in fun, and take it from us, a pleasant time was had by all. The ambulance was not even thought of.

Gilberton Scores in the Third Period

THE intermission was welcomed by the athletes, and after the field had been cleared the game was resumed. Coaldale got the ball, the players shook hands, stepped back and went at it again.

Because of the crowd and the difficulty in having them witness the contest from long range, the players decided to keep on playing and not have an

intermission between the halves. This was something unusual and the first time we ever have seen it done. When the second period ended Captain Gottschall went to the referee and said : 'Let's keep on playing. I will receive the ball down here."

He pointed to the end of the field which had a coating of tee bur no mow on it, and Captain Garland, of Couldale, kicked off from the 40-yard line, which, like the others, was lined with coal dust.

Then came the big surprise. Gilberton took on a new lease of life and played the open game. They discarded their line attack, which had fatled in the first half, and ran the ends. The hip ball was worked better than we ever have seen it worked before. A spread formation was used, with the quarterback. Foulk, behind the center. Marse, the left end, would rush around, take the bail and then pass it to Sheehan for a reverse play.

The next time he would keep on going, but hold the ball in one hand and hide it behind his back. He fooled Couldale three times in a row and brought the ball to scoring distance. Then Foulk tossed a forward pass to Houliban, who caught it in the field of play and disappeared in the crowd at the goal line. Gottschall kicked goal and the period ended. Couldale got the ball in the fourth period and never lost it. They would

make a first down and then wait until the crowd left the field. This was repeated several times and the ball was carried to the 4-yard line. Here Gilberton braced and threw Bonner for a loss. Time was getting short, darkness was setting in and the crowd was getting closer.

WAS then that Evans tried to pull an entirely new play, which I' was then that to be and all over it.

Self-Passing Play Goes Blooic

EVANS is the center, and a good one. He scored the winning toreadown against Shenandoah, and liked it so well that he was anxious to cross

Therefore he thought of the new play and tried it out. He passed the ball to himself, ran back and then headed for the goal line. He scored amid cheers of Coaldale and grouns from the Gilberton side. He stood behind the goal line, his face flushed with triumph and cold weather and waited for the verdict. It came. The referee refused to allow it, but before an argument could

start Charley McCarty, the umpire and timekeeper, stepped up and said in "The game is over. The score is 12 to 7 in favor of Coaldale."

THUS the great play went floore and Evans did all of that original work for nothing.

Great Spirit Shown by Rival Teams Up-State

MUCH has been written about football in the coal regions, but too much cannot be said about the spirit shown by the players. They all are boys who work in the mines and live in the towns they represent. They have no ringers. They are just as careful about the personnel of their teams as the strictest college in the country. Everybody knows everybody else up here, and while there is a keen spirit of rivalry, it is friendly.

They never have a coach. Everything is picked up by the players themselves, and they practice the plays at night under the electric lights in the street. And they have some great players. Bonner, Lithgow, Gitner, Captain Garland, Evans, Melley, Pavik and the others are stars in Couldale, and it would be difficult to find a better backfield man in the State than Gottschall, of Gilberton. Foulk is a great quarterback and Shechan and Butts are good halfbacks.

GILBERTON deserves a lot of credit, even in defeat. The team is light, but very scrappy, and plays the modern game. This is due in a great measure to the coaching of Prof. M. L. Shore, principal of the Gilberton schools. Mr. Shore also manages the team, Copyright, 1921, by Public Ledger Company
