BUSY SHIPYARDS AMERICA'S NEED

Lasker Says Adequate Merchant Marine Means Sea Prestige

INLAND STATES ADVISED

By the Associated Press

Milwaukee, Wis., Dec. 13.—In the prairie towns, cities, villages, towns and farms of our inland States the future of America on the seas will be decided.

Albert D. Lasker, chairman of the United States Shipping Board, told the Milwaukee Chamber of Commerce here today. The points farthest from the ocean will decide the fate of American shipping on salt water, he said.

"The dwellers of our coastal cities are naturally for a permanently established American merchant marine," continued Mr. Lasker. "It is the inland dweller, removed from direct contact with ships, who has felt a disinterestedness in American shipping that has almost amounted to an adverse prejudice if American shipping required national aid to assure its life."

"Granting that the 5-5-3 naval program, or some equivalent, be adopted, and that we have a naval holiday for a term of years, the question of naval aid to the merchant marine is not solved. We would be lacking in the yards and the trained workers to renew its strength; and the nations which during the holiday period had kept their yards active with merchant marine work would have an unmatched advantage over us."

"But the proponents of an American merchant marine must rest their case far beyond the grounds of national defense. Stability and restored normal prosperity must be based on development of foreign trade and foreign markets in a measure never before realized by Americans."

"As important as the railroads are in the wresting of the empire, so now, in the cycle of events, transportation on the sea becomes a paramount issue of the day, unless American statesmanship is bankrupt and American vision blind."

"We should remember that if we enter a ten-year naval holiday, and if we fail to establish a merchant marine, American shippers will be largely closed, and the art of shipbuilding will virtually be lost to us. Should again the day come when in the national defense we must make use of our navy, we would be lacking in the yards and the trained workers to renew its strength; and the nations which during the holiday period had kept their yards active with merchant marine work would have an unmatched advantage over us."
