

WEDDED ERE JURY CALL REACHES HER

Miss Porch Is Mrs. Lott, So What's the Sheriff Going to Do?

GIVES MORE VITAL VERDICTS

When Sheriff J. A. Turner, of Bridgeton, attempts to summon Miss Isabel Porch, of that place, for jury duty he will run against some obstacles which require an opinion of the Supreme Court to unravel.

Miss Porch was drawn for jury service yesterday, but Dan Capid was working at the same time, and her name was changed to Lott before the official notification of the Sheriff reached her. She married Ralph B. Lott, an instructor at Rutgers College, at her home.

As Miss Porch is now Mrs. Lott, her relatives said today she can tell the sheriff to take the air. The wedding was performed with the ceremony of the Society of Friends.

If the bride was worried by the fact that she was to serve on the jury there was no indication of it in her demeanor. After the ceremony the bride and groom left without a minute's delay for "somewhere in the United States." A few moments after their departure the Sheriff arrived with the notification, although it was apparent that all at the wedding knew he was approaching.

A relative of Mrs. Lott said this morning she would have more important verdicts to render in her home. Warren W. Wilkins, of Philadelphia, was the best man.

LORENZ CANNOT COME

Writes Dr. Conwell That Poor Health Prevents Visit

Failing health and a large number of cases awaiting treatment in New York City are the reasons given by Dr. Adolf Lorenz, noted Austrian surgeon, for his decision not to visit Philadelphia and for canceling further clinics in this country.

In a letter to Dr. Russell H. Conwell the famous exponent of bloodless surgery says in part:

"I have received your letter of November 30 and thank you for your kind expressions of welcome and your invitation to visit Philadelphia. In reply, I very much regret that poor health and the great number of cases will not permit me to visit any of the States during my stay in this country."

"Although we regret to learn that Dr. Lorenz will not hold a clinic in this city, our plans will not be changed," said Dr. Conwell. "We will go right ahead receiving applications just the same as if he would visit us. We will see that these unfortunate souls get the treatment that is needed for them."

STEINWAY PIANOS

Choosing a Piano

If you are in doubt, apply these tests: What instrument do the best-known pianists of Philadelphia—and the whole world—purchase and regard as essential to their art? What piano is generally endorsed by the great centres of learning and institutes of art? What piano have the heads of the great nations adopted to enrich the splendor of their capitals? What piano do you see in use at the commencements and recitals of the prominent music schools? What piano is most frequently seen in homes of cultivation? In the public mind, what piano name is universally associated with the standard of musical worth? Steinway, and it is sold for less than is asked for some inferior pianos and but little more than is asked for others.
