

Mrs. Wilson Provides Several Methods of Utilizing the Turkey That Remains She Also Explains Preparation of Bird for the Christmas Meal—A Tasty Minced Dish Can Be Fixed the Next Day

By MRS. M. A. WILSON Copyright, 1921, by Mrs. M. A. Wilson. All rights reserved.

THE preparation of this majestic bird is very important—if it is to be tender and nice. Have butter removed from neck and wash in plenty of water. Then wipe dry and then fill; place a cupful of the filling in the cavity at the shoulders where neck and crop were removed and draw skin to the back and use to close; use a darning needle and white string to sew up the openings. Do not overcook in the filling because it swells while cooking.

Now rub the turkey all over liberally with shortening and pat in a light coating of flour; place in baking pan and then place in hot oven. Just as soon as the turkey commences to brown, turn on its breast, having the hony structure of the back to the intense heat of oven. Do not add any water. Now commence to baste, basting every fifteen minutes, and cook turkey two and a half hours for nine or ten pounds and three hours for twelve to fifteen pounds.

To prepare the mixture for basting: Place giblets and neck. One-half cup of bacon or sausage drippings in saucepan and add three parts cold water. Bring to a boil. Place on the simmering burner and keep hot.

Half hour before removing from the oven turn the turkey on its back and baste breast, allowing breast to brown nicely. Then cover with thin strips of bacon, allowing one strip for each pound of turkey. Before removing turkey from oven add:

One cup flour. Two-thirds cups of water. Dissolve flour in water before adding and stir well into the gravy in the pan; season and allow to cook ten minutes. The turkey and gravy are then both ready to serve.

Turkey Filling Almost every community has its own particular filling that the housewife usually prizes. I have gathered a few unusual ones here, and if you select one of them I am sure the family will enjoy the novelty. The bread used is prepared as follows: Soak bread in plenty of cold water until soft; turn in piece of cheesecloth and press dry; rub through a sieve to remove lumps; this will be called in following recipes "the prepared bread."

Oyster Filling Look over and drain twenty-five oysters and cut in pieces. Place in a mixing bowl and add:

Three cups of the prepared bread. One-half cup finely chopped onions. One-half cup finely chopped green peas. One-half cup finely chopped parsley. Two teaspoons of salt. One teaspoon of white pepper. One teaspoon of onion salt. One teaspoon of poultry seasoning. Mix and fill into turkey.

For cranberry filling add: One and one-half cups of finely chopped cranberries. For walnut filling use one and a half cups of walnuts in place of the pecans. The old Holland Dutch and German potato filling is delicious and well worth trying.

Mince very fine. Sufficient green tops of celery to measure two cups. Place in skillet one cup of sausage or bacon drippings; add the prepared celery tops.

One cup finely chopped onions. One-half cup finely chopped soup herbs. The cups washed potatoes. One and one-half cups of the prepared bread. Two teaspoons of salt. One teaspoon of pepper. One teaspoon of onion salt. One teaspoon of poultry seasoning.

Mix and cook very slowly, turning frequently, taking care not to let brown. Cool and use for filling. The Flemish and Austrian housewife adds one cup of finely chopped nuts to the above filling.

To serve the left-over turkey: Serve as cold cuts with potato salad and coleslaw. Turkey as an entrée and last as grilled turkey bones.

Emince of Turkey Cut leftover turkey in small pieces not less than half an inch; do not put through food chopper. This cuts meat too fine and it becomes very mushy. Place in saucepan.

One and one-half cups of milk. Six tablespoons flour. Stir to dissolve flour and bring to a boil. Cook slowly for three minutes. Now add:

One tablespoon of grated onion. One-half cup of finely mince of parsley. One-half teaspoon thyme. Two teaspoons salt. One teaspoon pepper. Juice one lemon or one tablespoon vinegar.

The prepared turkey meat: To mix and heat slowly until scalding hot; serve on toast garnished with sliced hard-boiled egg and parsley. For variety add:

One-half cup of coarsely chopped nuts, using either almonds, walnuts or pecans. One cup diced and cooked celery. One cup well-drained canned peas.

To Grill Bones Dip in mignonnette, roll in fine bread-crumbs and broil or bake in hot oven for ten minutes. Serve with tartar sauce.

MRS. WILSON'S ANSWERS Dear Mrs. Wilson—Will you please publish a recipe for waffles? Mine are so tough and I would like to know how to make them so that they will be nice and crisp. MRS. G. S. L.

Waffles Place in a bowl: One egg. One cup of milk. One and three-quarters cups of flour. One teaspoon of salt. Two teaspoons of sugar. Five level teaspoons of baking powder. One level tablespoon of shortening. Beat to mix and then bake in well-greased smoking hot waffle iron.

My Dear Mrs. Wilson—Will you kindly give me the recipe for preparing canned dried and the fresh mushrooms? I would like to prepare some of the sauces for omelets. MRS. A. V.

To use the canned mushrooms, open a can of the mushrooms and turn at once into a china dish. Let stand for half hour or longer and then heat to boiling point, and cook for three minutes. They are then ready to use as desired. Soak the dried mushrooms in plenty of cold water for an hour, then cook for five minutes and then drain, and they, too, are ready to add to any sauce that you may desire.

Just by the merest chance I saw the bottles of scalding salts, and thought you might like to know about them in case there is some one's gift yet to be bought. The shape of the bottle is unusual, a rather large flat bottom, and then a graceful tapering to the gleaming glass stopper. It is filled with rose-scented smelling salts.
