## A New Price For a New Year

GMC trucks enter 1922 at a price in keeping with the spirit of the times.

On January 1, 1922 these reduced prices will become

Model K 41-2 Ton **\$2775** Model K 71-3½ Ton 3950 Model K 101-5 Ton 4350 (Chassis Only, F.O. B. Factory, Plus War Tax)

These prices represent a saving over the original price of these models of from \$625 to \$1050 per chassis. In addition, the Model K-16, one ton chassis, which was recently reduced to \$1495, completes the GMC line.

We are able to make these reductions because of our improved manufacturing facilities; because we have what competent men say is the best equipped truck factory in the world and because our inventory has been adjusted to present day values.

So now, at the beginning of the New Year, we are reducing prices in keeping with the spirit of the times.
