The following program has been arranged for the celebration in connection with the first physical work on the new Delaware River bridge: 8:45—Governor Sprout and Governor Edwards, accompanied by the Philadelphia Commissioners, leaves Bellevue-Stratford for Camden. 9—Parade starts in Camden. 11—Parade starts in Philadelphia. 12:45—Lunch at Bellevue-Stratford. 2—First swing of the silver pick and first prod of the crowbar at Pier 11 signifying the actual beginning of the physical work on the bridge. 2:10—Ceremonies and exercises at Pier 11, North Wharves. When Governor Sprout drives a silver pick into the old planking on Pier 11 and Governor Edwards, of New Jersey, gives an extra prod with a crowbar tomorrow, work on the Delaware River Bridge will have begun. Incidentally, a program of celebration will also be started in Philadelphia, a continuation of the ceremony which opens in Camden at 9 o'clock in the morning.

There will be parades in two States, New Jersey and Pennsylvania, speaking, banquets and luncheons. Everything has been timed and planned to the minute for a gala day. From 9 o'clock in Camden until 11 o'clock in Philadelphia other things will be stirring besides the mud and fishes in the Delaware.

Camden Parade in Morning The first of the ceremony will start in Philadelphia, when at 8:45 the Commissioners of Pennsylvania will leave the Bellevue-Stratford to join the Commissioners of New Jersey in Camden.

James H. Long will act as marshal. The parade will start in Camden, the Bridge Commission will follow in twelve automobiles. There will be a detachment of sailors and marines, the Camden Rotary Club, Camden Chamber of Commerce, Camden Real Estate Board and the Auto and Traction Association. The line of march will be east on Federal street to Broadway, to Market street, to Ferry terminal.

At this signal a hydroplane will rise on the Camden side and fly toward Philadelphia, stretching across the river a ribbon, as a symbol of the bonds of friendship between the two States. Cars in the parade which will leave

WHAT'S WHAT

It is an insult to the most uncivilized tribesmen of darkest Africa to say that spitting on the pavement is a savage custom. Although in many States this disgusting offense is prohibited by statute, it is only too evident that the laws on this subject are disregarded with impunity. Men chewing tobacco as they walk along the streets do not hesitate to spit without knowing or caring who follows them. Their mingling of tobacco and saliva is often carried by the wind so that it spatters the clothing of the pedestrians immediately behind them. Men and boys with bronchitis, and even tubercular affections, go along hawking and spitting in the same manner, thus conveying disease-germs as well as uncleanness to all passers-by. If the victims of this inconsiderate rudeness would complain to the local Board of Health, the rule of decent manners might be enforced by law.
