

QUESTION BARRAGE HITS TAX OFFICERS

"Some Are Classics," Says McCaughn, Starting Classes to Instruct Deputies

If my income last year was \$5,001, how much tax do I owe the Government?

Is a woman who is separated from her husband deemed the head of a family where there are children?

How much exemption can a man claim who is married in the middle of the year?

This is not a quiz course, although it is in any one of a thousand questions which income tax collectors will be able to answer in an authoritative manner.

Beginning today Collector of Internal Revenue McCaughn is personally instructing his assistants in the solution of these types of questions.

The information will be available to any one who is worried about filling out his income tax blank.

Collector McCaughn will have a quiz class in the Federal Building tomorrow, where all the deputies and assistants who have any part in meeting the public during their tax work will attend.

"My assistants," said Collector McCaughn, "must be versed in all the recent constructions of the income tax law. They will be more able to benefit the public if the information is at their finger tips. Our service, too, will be benefited and the collection of taxes speeded up."

"Some of the questions asked the clerks and deputy collectors are classics. I want to personally supervise the course which we have arranged. The course, for the present, will not be open to the general public."

"This step will go far in humanizing the service and I am sure the public when we are busy seeking to serve, will appreciate our efforts in their aid and the Government's behalf."

"DANDERINE"

Grows Thick, Heavy Hair

35-cent Bottle Ends All Dandruff, Stops Hair Coming Out

Ten minutes after using Danderine you cannot find a single trace of dandruff or falling hair and your hair will not itch, but what will please you most will be after a few weeks' use, when you see new hair, thick and downy at first—yes—but fully new hair—growing all over the top. Danderine is to the hair what rain showers of rain and sunshine are to vegetation. It goes right to the roots, invigorates and strengthens them, helping the hair to grow strong and luxuriant. One application of Danderine makes thin, less, colorless hair look youthful, bright, lustrous and just twice as abundant.—Advt.
