

SOVIET TO ASK U. S. DAMAGES AT GENOA

Will Present Claims Against European Powers and America

SEEK BEWILDERING SUMS

By the Associated Press
Moscow, Jan. 23.—Bolshevik delegates to the Genoa conference will present reparations claims there against various European Powers and the United States.

If these claims are made in terms of Bolshevik rubles, new names for large amounts may be necessary, for the familiar terms of the decimal system will not cover the staggering sums claimed by this country, which issues single bills for 100,000,000 rubles, and discusses debentures of rubles as mere hundreds.

The Versailles conference mustered no such brigades of experts as the Moscow Government called into service months ago and has been training for the Communist attack upon capitalist fortresses at Genoa. Every possible brand of political, social, historical and economic expert has been drafted.

Foreign debts owed by Russia and the claims of other governments against the Soviet regime will be as nothing when compared with the amounts that Moscow has chalked up against England, France and America. The Alabama claims, upon which the United States was successful after the Civil War, form the chief precedent upon which the Bolshevik government will present its claims.

Reams of documents will be presented to show the responsibility of the great Powers for the damage suffered by Russia as a result of the Russian-Soviet advance in Siberia, Admiral Kolchak's ill-fated movement, the Archangel expedition, General Denikin's sweep northward from the Caucasus, General Baron Wrangel's Crimean expedition, General Yudenich's incursion in the Baltic States, Simon Petliura's activities in Ukraine and hundreds of smaller expeditions.

The Gimbel leadership in furniture came through our mastery of hotel furnishing. A good hotel needs simply many units of the furniture needed in a private home. The furniture must be more durable than simply home-furnishing stores demand.

It's the difference between the upholstery of a mediocre sofa as compared with the durability of a plush seat in a railroad train.

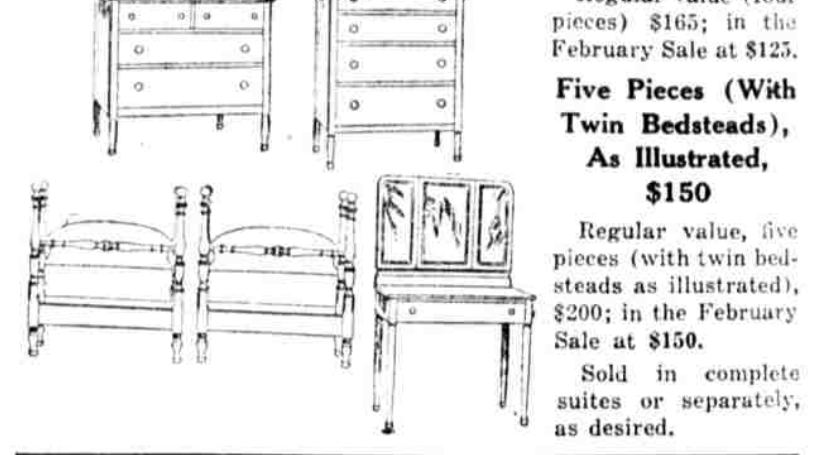

Let us look facts in the face! Sensible money-spending depends on
